

Plankton and Benthos Research

Overview

Plankton and Benthos Research is the joint journal of The Plankton Society of Japan (http://www.plankton.jp/index_e.html) and The Japanese Association of Benthology (<http://benthos-society.jp/>). The journal publishes quarterly original papers, reviews and notes dealing with any aspect of the biology and ecology of plankton and benthic organisms and their interactions with the environment in any aquatic system, and is open to all scientists around the world.
