Impact force characteristics of walking on flat floor, stairway, and slope for aged persons ........................................... Kazuhiro INOUE, Sho KIMURA and Ryuta TOMITA 1
Development of 65-node thermoregulation-model for evaluation of thermal environment .............................................Seto HARA, Junya NAKANO and Koza KOBAYASHI 9
The study of preferred air temperature in winter .......................................................... Naomi SAASSA, Hiroki KUBO, Norio ISODA and Takako YANASE 17
Numerical simulation of fire plume-induced ceiling jets using the standard k-ε model .....................................................Tetsuo HARA, Mutsumi YOKO and Shinseki KATO 23
Exhaust duct for suppression of suction temperature of outdoor condensing unit. —Suction temperature characteristics of air-conditioner outdoor condensing unit in multi-level installations (continued report)..............................................................Manabu KISHITA, Hirofumi HAYASHI and Takashi KURABUCHI 31
Flow and concentration fields within and above asymmetric model urban street canyons in a wind tunnel .................................Kiyoshi UEHARA, Shuzo MURAKAMI, Shinsuke WAKAMATSU and Tadashi IKEAWA 37
Study on behavior of indoor formaldehyde concentrations in air-tight houses .......................................................... Takahiro OZANO, Yoshika SEKINE, Yoshiko SUEAGA, Atsushi NISHIMURA and Hiroshi KOMINE 43
Data analysis on “cool spot” effect of green canopy in urban areas—Masakazu MORIYAMA, Hiroshi KONO, Atsoumi YOSHIDA, Hiroshi MIYAZAKI and Hideki TAKEBAYASHI 49
A study on the evaluation of the impressions of visual spaces using simulation systems .................................................................Sumio YAGI, Tadashi ITOU and Hideki KAKEI 57
A study on the livingstyle of the young and old family’s devided living. —In case of group folk village in cheorwon-kun ..........................Kimyoung KWAU, Katsuki OKAHA, Katsunori OYAKI and Toshiro OTSUK 63
The analysis of behavioral characteristics of people with severe upper limb disabilities in sweden through cooking ..........................Hiroshi MIZUMURA and Nobuko OGAWA 71
A study on the elderly behavior and living space in a different space of the elderly facilities —The life of elderly and their space usage in 6 facilities in Japan and Korea — ..........................Yajun YI and Gen TANIGUCHI 79
Factors determining user’s area of the public performing arts center in the suburbs of a large city —Case study in n-city performing arts center —...........................................Taisi SAKAGUCHI, Yumiko UNODA and Minoru KANNO 87
Study of visual characteristics on each seat and theatres as well as whole in opera houses —Study on the spatial characteristics in theaters and halls part IV ........................Tsuneto URABE, Tatsuhiko FUKUSHIMA and Hiroshi TSUMITA 93
Relations between the disabled in the lower-extremities’ mobility and consciousness for escape in building fire —A study on fire safety planning for people with disabilities part I ..........................................................Kohei SAKATA, Shiro KISHIHARA, Hidemasa YOSHIMURA and Takashi YOKOTA 101
A study of an analysis of the traffic networks in large-scale housing estate —Mikio TAKAGI, Hirokuni TANIGUCHI and Kazuya AMANO 109
The composition of visibility on the position of host and main guest in the tea room —A study on architectural plan description and evaluation with “sight-depth” — ..............................Kisuke KITAGAWA, Tatsuo YOKOYAMA, Yukihiko HAYASE, Kazuo FUMOTO and Shigeru WAKAYAMA 117
The actual state and the spatial characteristics of street performances in the bustle quarters —A study on the characters of urban spaces that will induce communication — ..........................Kohei SAKATA, Shiro KISHIHARA, Hidemasa YOSHIMURA and Takashi YOKOTA 125
Study on image of appearance for chinese and japanese traditional architectures —Ingele LIU, Toshihisa KONISHI, Shigeharu NAKAMURA and Yoshito KATO 131
A study on community design centers in the united states —The historical development process and organizational structure —Taniyoshi WATANABE and Yoshinobu SHOZAKI 139
A towncape in the residential area and an aspect of housing design A study on a towncape in the residential area, an aspect of design and a towncape consciousness in sapporo part I — ..........................Fukushikita Ayano and UNO Hiroe 147
A study on the evaluation structure of the environmental resources —The method of the town planning A study on the architectural community — ..........................Hiromi TAMURA and Shunsu TAGO 153
Network method using connecting ratio in construction scheduling —Yoshimi DORASHI, Yoshiohisa MASAMURA and Tomohiro YOSHIDA 161
Statistical analysis on locality in physical types and dwellers characteristics of condominium buildings in tokyo metropolitan region —A study of physiological and emotional characteristics of people living in kondai metropolitan area part 1 — ..........................Hiroshi SUZUKI and Hiroshi Saito 169
A condition of condominium supply and an initial establishment of management A study for formulating a management system of condominiums in chuo-ku metropolitan area part 1 — ............................Hiroshi SUZUKI and Hiroshi Saito 177
A basic study on the life cycle cost based on the conditions of the maintenance in office buildings —A study on the “oneshitatetokoro” and “onkharaboriokitokoro” that built for making the panel paintings of nishinomaru palace in tempo eras and honmaru palace in koka eras, edo castle — ..........................Yukari YAMADA 185
Meanings in the chumon style farmhouse from the 17th century From surveys during dismantlement for preservation of the sakakibara family farmhouse in yuza, yamagata prefecture —Tatsuo MIFUNE 193
The architectural control for building of temple and shrines, and building procedures against the rule at the hagi clan A study on the architectural control at the hagi clan no.1 — ..............................Norio Tsuchiya 201
The history and the styles of the architectural section of hokkaido imperial university —Shigeyasu IKEGAMI, Takeshi KOSHINO and Yukihiro KADO 209
On outline and evaluation of an architectural publisher, kouyou-gakush u —Masako KAWASHIMA, Masaki YASHIRO and Mitsu OHHKAWA 217
Design technique of the kiwari of the “kan ke type” in the “gong cheng zuo fa zu lie” Zheng lou —Ziyan Jia and Liu Qiang —Kasumi YOSHIDA 225
Typology of the polychromy —Study on polychromy in the late medieval religious architecture in tuscany vol. II — ..............................Kasumi YOSHIDA 233
Structure of measurement and proportion found in the cistercian church plan of l'escala dies abbey —Matsumoto NISHIDA 241
Description of the grave monument III Architectural survey of ancient city of messene in greece (1) — ..............................Aksel TAKEDA and Juko ITO 251
The foundation of istituto tecnico superiore di milano and c. boito’s principle of the architecture education —Yoohiro YOKOTE 259
On mart stam’s view and parameters for modern architecture —Masaki YASHIRO 265
