Requirements for permissions to extend school activities with residents in primary school  
A study on cooperation between teachers and residents for pulling up residents' educational ability -  
Masumi WATANABE, Hiroshi AIJAWA and Makoto SUGAWARA  
A basic study on gradual composition of locations for nursery activities in wards in relation to the locations of materials  
Shinshuke KAWASHIMA, Koji KATSUO and Shoji IMAI  
Comparative analysis of three models through experimental design - Design models which represent activity part 1 -  
Yasuhito KAWAKITA and Maik AMATSU  
A study on the walking behavior of university students who are blind and have low vision - Case study on the university campuses  
Yujir MATSUDA and Kanako NISHIDE  
A study on the openness at community cafes - Analysis of the narratives described by masters -  
Shinya KAMADO, Takashi MIZUHARA, Shigeki MATSUBARA, Toshio MOU and Michihiko KITA  
Study on the restaurant customer's behavior and the usage of the railway station toilets  
Yuri NAKAGAWA, Yasuo KOSHIRAWA, Saburo MURAKAWA, Toshiyuki HORI and Yasuo TAKATSU  
Floor plan characteristics of modern houses by focusing on room floor area and wall length  
Keisuke KITAGAWA and Naoki NISHIYAMA  
Relations of a family from the viewpoint of constitution analysis in chinese movie "postmen in the mountains"  
Shinji KURIHARA  
A study on the modernization process of hounges in chinese farm villages - The case of no. 2 village association, yangde village, jingxinzhou town, nanjing city, china -  
Ie ZHANG, Hiroshi KATANO and Tomo INOUE  
Considerations on formation and transformation in pettah (colombo, sri lanka)  
Koichiro YAMADA, Masahiro MARDA, Kazu MURAKAMI, Yasue NAKAGAWA and Shuji FUJIN  
A study on the complexity of surfaces in commercial districts  
The index making and the comparison with the mixture degrees of usage sections  
Ryoji YAMAGA and Keisuke ISHI  
Snow and wind environmental assessment on the public space comparing high-rise and medium-rise building blocks using the wind tunnel simulation  
Takayuki SETOBU CHI and Takuya TSUTSUMI  
The study on the characteristics and roles of common spaces in housing environment amelioration program  
Kanji TERRA-high density area in busan, korea -  
Pikyo CHO, Masanori SAKAI and Kunihiro NARUMI  
Consideration on realities and issues of settlements in south west coast of sri lanka after the sumatra earthquake and Indian ocean tsunami in 2004  - From the view of continuation from the usual living environment -  
Masahiro MAEDA, Yasue NAKAGAWA, Kyouta YAMADA and Shuji FUJIN  
The visual information which encourage or restrain citizens' strolling activities in urban space  
The relationship of strolling activities and visual information given by the environment in downtown  
Yutaka SUISHI and Mitsuhiro MOROZUMI  
The effects of minimum lot size regulation: simulation of the lots subdivision and consolidation in established urban districts  
Tomohiro OGAWA, Yamiko HIRATA and Yoshimichi HIRAKI  
Stochastic direct capitalization model for real estates  
Shinpei NAKAMURA and Masato HOSHIYAMA  
A study on the design method of shrines - About the plan design method of one-span shrines in architectural manual books -  
Yoshitaka OSAGI and Takashi INOUE  
Development of the front area of the west gate of the kaminji temple during the kyoho era - An example of the "urban development" in the oudo area of kyoto during the early modern period -  
Chikato FUKADA, Setsuko NAKAJIMA and Naoki TANI  
Development process and the background of villas of modern ages in okitsu  
Ranpo TSUCHIYA  
The introduction of the balloon framing and the american barn by kaitakushi - A study on the foreign architectural books formed owned by kaitakushi -  
Shigetsu IKEGAMI, Yukio KADO and Yoshinori MIYABE  
Generation of areas in case study houses - As a method to dwell in view -  
Fumie YAMANAKA and Masata WAKUMAKAI  
A study on design method of seismic risk derivatives focussing on the reduction in basis risk  
Ichiro SATO, Harumi YASHIRO and Seiichi FUJISHIMA
