SYMPOSIUM INTERNACIONAL
DE
AUDIOCIRUGIA

Director: Dr. Francisco Antoli-Candela

On the days 2nd, 3rd, and 4th of August next on International Symposium on Audiosurgery will be held in Madrid in which the following subjects will be studied:
1) Congenital defects of the ear, 2) Suppurative processes of the ear and its sequelae,
3) The Otosclerosis The surgery of the peripheral facial nerve shall also be discussed.

The Organising Committee, thinking of having the more scientific efficiency possible with a minimum of time, has decided to invite to distinguished Audiologists and Audiosurgeons as much foreigners as Spanish to expose all the problems relating to the actual Audiosurgery, to be able to know the different criterious audiosurgicals which are recognized in the whole world, putting up to date the extraordinary advances realized during the last years.

During the Symposium surgical sessions will be celebrated and they will be also passed some films projecting the last films got by the Official Relators.

The will be simultaneous translation and refrigeration in the conferences and operating rooms.

The 4th in the evening there will be an official dinner and on Saturday the 5th a trip to the Escorial and Valle de los Caídos, followed by a fiesta campera.

Once the Symposium finished the surgical sessions will be going on the days 7th, 8th, and 9th.

The fees of inscription, included the official dinner and touristic trip with fiesta campera pesetas 5,000.

The inscription is open until the 20th of June.

The Otologists inscribed to this Symposium will receive the definitive program.
