Message From the Editor-in-Chief

Circulation Journal Awards for the Year 2013

Reviews

Actions of Serelaxin in Acute HF
Primary Prevention of PAD
Mitral Valve Repair – Evolution and Revolution –
MicroRNAs in Cardiovascular Diseases
Diabetes and Heart Failure

Editorials

Catheter Ablation for AF
Emergency Care for AMI in Disasters
Comorbidities and Economic Outcomes of CVD Patients
Linkage of Preceding Weight Loss and HF
Clopidogrel-Statin Interaction
Pediatric OHCA
Adequate Management of VTE
Vitamin D and CKD

Original Articles

Arrhythmia/Electrophysiology
PVP Disappearance Patterns Predict AF Recurrence
KCNE1 G38S Polymorphism on Ik and Ik

Cardiovascular Intervention
Outcomes of LAA Closure Procedure

Cardiovascular Surgery
Small LV and RVF After CF LVAD Implantation

Critical Care
Emergency Care of AMI in Earthquake Disaster

Epidemiology
Indirect Economic Costs of CVD Comorbidities

Heart Failure
Weight Change and Mortality From HF

Hypertension and Circulatory Control
UACR and Hypertension

Imaging
Optimization of Coronary Attenuation in CTA

Ischemic Heart Disease
MDCT in Asymptomatic Diabetic Patients
PORTO Trial
Dobutamine FFR and Endothelial Dysfunction in MB

Pediatric Cardiology and Adult Congenital Heart Disease
NT-pro-BNP as Predictor of Reoperation in TOF
OHCA in School Children in the PAD Era
Peripheral Vascular Disease
Japan VTE Treatment Registry (JAVA)

Preventive Medicine
Surgical Indicators of Postoperative Cardiac Events

Regenerative Medicine
HPC Increases Survival of CPCs via Pim-1

Renal Disease
1,25(OH)2D and CKD
Stroke
Brain MRI of Aortogenic Embolic Stroke

Vascular Biology and Vascular Medicine
Microvascular Notch Signaling Response to VEGF
VEGF-A in Murine Coronary Arteritis

Rapid Communication
PT With Rivaroxaban for AF

Images in Cardiovascular Medicine
Renal Artery Stenosis After Sympathetic Ablation
Giant SVG Aneurysm
Sequel of Jailed Side Branch

Letters to the Editor
Cerebral Blood Flow in Takotsubo Syndrome
