Message From the Editor-in-Chief
Announcement of the 2015 JCS Meeting Activities (2) ..... 1139

Reviews
ROS in Endothelial Function ..... 1145
Cardiac Arrest Centers for Post-Resuscitation Care ..... 1156
Transcatheter Approach for Severe MR ..... 1164
Current Developments in Pressure-Only Indices ..... 1172
Precipitating Factors for Fatal Arrhythmias ..... 1185

2015 ACC Report
2015 ACC Report ..... 1193

Editorials
SSS and AV Block ..... 1199
Revascularization for ULMCAD ..... 1201
ASV Rehabilitation After Cardiac Surgery ..... 1204
Renin as a Biomarker of HF ..... 1206
New Index From ITI Measurements ..... 1209
Visualization of Coronary Vasa Vasorum ..... 1211
Effects of Fasudil on PH ..... 1213
Cardiologists and Obstetric VTE ..... 1215
New Regulator of Angiogenesis Mediated by Pericytes ..... 1218
Angiotensin (1-7) and Exercise ..... 1220

Late Breaking Clinical Trials (JCS 2015)
SYMPLECTIC HTN-Japan ..... 1222
Apixaban Japanese VTE Treatment Study (AMPLIFY-J) ..... 1230
Efficacy, Safety, and Tolerability of Serelexin ..... 1237
Prasugrel vs. Ticagrelor in Korean STEMI Patients ..... 1248

Late Breaking Cohort Studies (JCS 2015)
AMI Registry in Japan ..... 1255

Original Articles
Arrhythmia/Electrophysiology
AVB in SSS and Value of Pacemaker EGM ..... 1263

Cardiovascular Intervention
Invasive Cardiovascular Procedure in Hemodialysis ..... 1269
US-Guided Thrombin Injection for Pseudoaneurysm ..... 1277
5-Year Outcome in Patients With ULMCAD ..... 1282

Cardiac Rehabilitation
Efficacy of Rehabilitation With ASV After OPCAB ..... 1290

Cardiovascular Surgery
TAP Using a Flexible Band/Ring ..... 1299

Heart Failure
PRA Is a Predictor in ADHF on RAS Blocker ..... 1307

Heart Failure
PRA Is a Predictor in ADHF on RAS Blocker ..... 1307

Peripheral Vascular Disease
Maternal Death-Related VTE ..... 1357

Regenerative Medicine
Ninjurin1 Regulates Angiogenesis ..... 1363

Vascular Biology and Vascular Medicine
Training and Vascular RAS ..... 1372
Impact of Severe OSA on Endothelial Dysfunction ..... 1381

Images in Cardiovascular Medicine
3-D LA Scar Due to MR as Cause of AT ..... 1390

Histological validation for OFDI measurement of coronary adventitial vasa vasorum in pigs. Representative Masson’s trichrome and vWF stainings (A) and cross-sectional OFDI image (B). See Figure legend on 1327.
