FOREWORD to Vol. 10

Special Cluster in Conjunction with IEICE General Conference 2021

Since 2019, the editorial committee of ComEX has issued the special cluster related to the IEICE General Conference, which is annually held in March; there we have more than 1000 presentations with one- or two-page manuscripts for each. Since most of them are written in Japanese, this cluster is planned to open the technologies shown there to the world. Thanks to the authors and readers, ComEX's annual submissions and published letters are increasing; we think that these clusters enjoy good reputations and push the numbers up. Finally, I would like to thank all the authors, reviewers, and the editorial committee members, for their contributions and great efforts to make those special clusters successful.
