Symposium:

Social Changes in East Asia and Education Reforms

The following special feature is based on the international symposium organized as part of the 2009 annual meeting programs of the Japanese Educational Research Association. In the symposium, Professors Sung and Chen whose papers follow, as well as Dr. Christine Lee of the Institute of Education, Singapore, made presentations, and Professor Shimbo commented on them. Animated discussion followed. The reader will easily learn the contour of the symposium through the review prepared by Professor Shimbo.
