Genes Genet. Syst. (2018) 93, p. 125–133

Regulation of MCM2-7 function

Yukio Ishimi

On page 126, on the bottom line of the left column, the sentence opening “Conversion of these two conserved basic amino acids in either Mcm4, 6 or 7 in *S. cerevisiae* to aspartic acid did not affect cell growth,” should be changed to “Conversion of these two conserved basic amino acids in either Mcm4, 6 or 7 in *S. cerevisiae* to alanine did not affect cell growth,”.

On page 127, in the Fig. 3 legend, the second sentence “Two conserved basic amino acids in the amino-terminal region of Mcm4, 6 and 7 proteins were mutated to aspartic acid in *S. cerevisiae* (Froelich et al., 2014).” should be changed to “Two conserved basic amino acids in the amino-terminal region of Mcm4, 6 and 7 proteins were mutated to alanine in *S. cerevisiae* (Froelich et al., 2014); the suffix D indicates double-alanine mutation”.
