Table of Contents

Research Papers

Takahashi, T., S. Ogura and K. Sugawara  Vertical Distribution of Available Foliage and the Selectivity of Grazing Heights by Cattle in Native Grasses  1–5

Xu, C., Y. Cai, N. Moriya, M. Amari, M. Murai and M. Ogawa  Prediction of Chemical Composition of Unground Forage Paddy Rice Using Near-infrared Reflectance Spectroscopy  6–10

Tsuru, M., Y. Momose, T. Takai, T. Nakayama and H. Watanabe  Fermentative Quality of Round Bale Silage Made from Densely Planted Forage Sorghum (Sorghum bicolor Moench) Using a Flail-type Harvester  11–15

Fukagawa, S., A. Inoue, K. Yoshida, H. Komura, Y. Ishii and K. Sato  Prediction of TDN Concentration of Forage Rice (Oryza sativa L.) Silage from In Vitro Dry Matter Digestibility and Dry Weight Percentage of Panicle  16–22

Yamakawa, M., H. Abe and M. Okamoto  Effect of Incubation with the Edible Mushroom, Pleurotus ostreatus, on In Vitro Degradability of Wheat Straw  23–27

Idota, S. and Y. Ishii  Annual Variation in Herbage Dry Matter Yield under Some Forage Cropping Systems on the Heavy Soil in Southern Kyushu  93–101

Kobayashi, R., K. Sato and I. Hattori  Effects of Water Management and Wheel Traffic on Regrowth of Forage Rice  109–113

Kobayashi, R., K. Tateno, K. Sato and I. Hattori  Fertilizer Management for the Italian Ryegrass-Corn-Corn Triple Cropping System Receiving an Annual Dose of Manure as Single Application  114–121

Yayota, M., M. Hanada, S. Kondo, H. Nakatsuji and M. Okubo  Factors Affecting Forage Utilization in Dairy Farms Adopting Grazing in Eastern Hokkaido  122–126

Hashiguchi, M., S. Tsuruta, T. Matsuo, M. Ebina, M. Kobayashi, H. Akamine and R. Akashi  Analysis of Genetic Resource in Zoysia spp. 2. Evaluation of Genetic Diversity in Zoysia Grass Indigenous to Southwest Islands of Japan Based on Simple Sequence Repeat Markers  133–137

Tobina, H., M. Yamasita, A. Koizumi, M. Fujimori, T. Takamizo, M. Hirata, T. Sasaki, T. Yamada and H. Sawada  Screening of DNA Markers that Distinguish between Perennial Ryegrass (Lolium perenne) and Italian Ryegrass (L. multiforum)  138–146

Eguchi, K., N. Yuyama and H. Cai  Development of DNA Markers Closely Linked to the Gene for Resistance to Southern Corn Rust (Puccinia polysora Underw.) in Maize  147–151

Okamoto, H., M. Okumura and A. Furudate  Recommended Application Rate of Nitrogen Fertilizer for Mixed Sown Meadow of Perennial Ryegrass (Lolium perenne L.) and White Clover (Trifolium repens L.) in Tenpoku Region of Hokkaido  152–158

Niimi, M., K. Fukuyama, S. Sei and O. Kawamura  Effect of Moisture Content on the Fermentation and the Intake by Breeding Japanese Black Cattle of Silages Made from Tropical Grasses  183–188

Sasaki, H., K. Kohyama and S. Matsuura  Geographical Distribution and Potential Grass Productivity of Abandoned Cultivated Land in Japan  189–194

Okamoto, H., A. Furudate and M. Yoshida  Effect of Nitrogen Fertilization on Sugar Composition and Silage Fermentation of Perennial Ryegrass (Lolium perenne L.)  195–200

Oshita, T., T. Mitan, M. Miyagi, Y. Aoki and F. Akiyama  Chemical Composition, Characteristics of Silage Fermentation and Nutritive Value of Potato Pulp Silages with or without Lactic Acid Bacteria Inoculants  201–207

Kobayashi, R., K. Sato, I. Hattori and T. Konishi  Optimum Planting Density and Fertilizer Application Rate of Forage Rice under Ratoon Cropping in the Central Kyushu Region  208–214

NII-Electronic Library Service
### Table of Contents

**Lianfeng and S. Yamamoto**  
Mechanism of Salt Tolerance in Chinese Wild Rye (*Aneurolepidium chinense* (Trin.) Kitag.).  
1. The possibility of participation of osmotic adjustment  
215–220

**Iwabuchi, K., M. Gau and Y. Horikawa**  
Compatible Ability of Galega (*Galega orientalis* Lam.) with Timothy (*Phleum pratense* L.) in the Mixture Grassland  
221–226

**Kanno, T., S. Morita, S. Kurokawa, T. Senda and S. Matsura**  
Degree of Lodging Caused by Windstorm in Mid-growth Stage and Subsequent Recovery in Silage Corn Cultivars  
259–265

**Kitagawa, M., K. Ikeda, Y. Yamamoto, S. Sato, T. Nishida, K. Miyazaki and T. Hatanaka**  
Evaluation of Labor Saving Procedure of Transplanting *Zostzia japonica* Steud. Seedlings on Cattle Dung Pats  
266–269

**Souma, K., T. Masuko, P. Wang, H. Tsutsumi, Y. Hara, M. Hanada and M. Okamoto**  
Influences of Feeding Grass Silage Added with Formic Acid, a Bacterial Inoculant, and a Mixture of Bacterial Inoculant and Enzyme on Nutritive Value and Nutrient Intake in Sheep  
270–276

**Hiroi, K., T. Matsumura, S. Yokota, S. Isobe and K. Okumura**  
Effectiveness of the Fall Dormancy for Classifying Japanese Varieties of Alfalfa (*Medicago sativa* L.)  
277–281

**Chen, J. and M. Shiyomi**  
Analysis of the Spatial Heterogeneity of Vegetation Survey Data with Replications Using the Power Law  
282–288

Effects of Various Amino Acid Fermentation Byproducts on the Fermentation Quality and Feed Characteristics of Italian Ryegrass (*Lolium multiflorum* Lam.) Silage  
289–294

**Fushimi, A., S. Uozumi and S. Deguchi**  
*Calystegia japonica* Choisy Control with Fall Tillage in the Previous Year of Corn Cultivation  
295–300

**Wuyunna, K. Okamoto and M. Shiyomi**  
Changes in the Plant Community, Species Diversity, and Soil Properties with Vegetation Regeneration in the Horqin Sandland of Northeast China  
301–307

### Short Reports

**Yamamoto, Y., Y. Saito, H. Kiriti, S. Takahashi and N. Kitahara**  
Difference in Vegetational Changes in *Miscanthus*-type Grassland Following Cutting and Burning Treatments  
28–30

**Eruden, B., T. Nishida, H. Matsuyma, K. Hosoda, S. Shioya, C. Xu, K. Nonaka and A. Yamada**  
Fermentation Quality and Palatability of Dry Cows of Fermented TMR Mixed with Green Tea Waste  
31–33

**Katayama, N., K. Sato, K. Mochizuki and S. Serizawa**  
Method for Extraction of Plant Growth Inhibitor from Compost for Use in the Germination Test  
34–37

**Narita, H., M. Nashiki and Y. Higashiyama**  
Grazing Capacity of Kentucky Bluegrass (*Poa pratensis* L.)-Dominant Pastures Continuously Stocked by Cattle in Northern Tohoku  
159–162

**Nimi, M., K. Fukuyama, K. Hirai and O. Kawamura**  
Dry Matter Intake of “Acetic Acid Silage” Made from Guineagrass (*Panicum maximum* Jacq.) by Breeding Japanese Black Cattle  
163–166

### Practical Report

**Kanaya, C.**  
β-carotene and α-tocopherol Contents of Forage Rice Plant (*Oryza sativa* L.) and Silage Making for Fattening Beef Cattle  
167–171

### Research Information

**Kondo, M., K. Kita and H. Yokota**  
Variations in Chemical Composition of Tea By-products among Companies and Production Lots  
172–178

**Hayakawa, Y.**  
Formation of Clay Soil Grassland on Aqueous Hills  
2. Comparison of grassland soils in Karst plateaus in Japan and Ca-Mg carbonate rock districts in Europe  
249–255

### Special Feature

**Kano, S.**  
Introduction  
38–39

**Inoue, T.**  
Conservation of Butterflies in Relation to the Recent Land Use Change in Japan  
40–46

**Imura, O.**  
Diversity and Functions of Dung Beetles in Pasture  
47–51

**Tsukada, H.**  
The Feature, Current Status and Conservation Issues of Wild Mammals in Japanese Grassland  
52–58

**Ide, Y.**  
Effect of Cattle Grazing on the Rooting by Wild Boars  
59–63

#### Approaches to the Livestock Production Based on Land Use Agriculture

**Tateno, K.**  
Background and Purpose of the Special Feature  
227–228

**Yamada, A.**  
Organic Milk Production at Ooti Farm  
229–233

**Ohgi, T.**  
Activities in Hokkaido on the Livestock Farming Considering Environment and Animal Health  
234–237
