WELCOME YOUR PARTICIPATION to THE ACADEMY

To expect the establishment of the new civilization
Not to make a negative factor to increase elderly in that civilization

Your participation is expected for the study and practice of:
the way to derive the possibility that the human being has as the species and
the way to solve the aging crisis

The biophilia rehabilitation academy aims at contributing to the stability of the
life and mankind's welfare improvement in order;
:to be able to realize
"From care reliance to Independence" in the society
and
:to extend the healthy life expectancy of mankind who has the heart and / or will
that one wants to keep living as a respectful human being when one becomes a
handicapped person.

The biophilia rehabilitation is composed of Takizawa Rehabilitation Program, Moti-
-vative exercise and home care.
Takizawa program is an execution program for the rehabilitation by the sitting
position to the aged handicapped person.
Motivative exercise that is enforced by a patient whose healthy extremity moves
diseased one is a pseudo and kind of passive exercises of a physical therapist by using
the devices developed.
The biophilia rehabilitation network is a segue network for the supply of the
biophilia rehabilitation service through hospitals, community health facility centers and
own home.
