Biophilia Rehabilitation Academy

5-4-104, Zengyo 7-chome, Fujisawa-shi, Kanagawa 251-0871 JAPAN

Message

As the Co-Conference Chair, I am pleased with joint holding the First Commonwealth of the Northern Mariana Islands International Conference on Assistive Technology and International Biophilia Rehabilitation Conference.

Biophilia Rehabilitation Academy is a Japanese Non-Profit Organization for the diffusion and study of Biophilia Rehabilitation that consists of Takizawa rehabilitation program, motivative exercise and home care.

I had planned this Conference by the personal relations with Dr. Celia Lamkin.

Its character had been changed from private service to the government business. This occurred in the progress of that preparation concerning the international conference.

We announce the most advanced research of us in this international conference. The general presentations are introduced to the public in the world through J-STAGE (Japanese Scientific Database).

The presentations that are done in the symposium with the actual results of the study reported until now connected with everyone's life directly.

I believe that these announcements are useful for the life improvement of you.

Holding the conference is realized in preparation by the effort of every one of the scientific committee and the planning committee.

The scientific committee is organized by mostly Japanese professors, doctors and co-medicals.

The Planning Committee is organized by mostly CNMI government officials. I expressed gratitude with paying respect to you who has done this preparation.

Shigeo Takizawa
SHIGEO TAKIZAWA

Executive Director
Biophilia Rehabilitation Academy of
Japan
