The 11th International Biophilia Rehabilitation Conference

(IBRC 2014)

September 12-13, 2014

"To Restructure Rehabilitation Medicine"

Hosted by;
International Biophilia Rehabilitation Academy
and
University of Sevilla

Co-Hosted by;
Romanian Society for NeuroRehabilitation (RoSneRa)
Medical Research Center, Polish Academy of Sciences, Warsaw, Poland
Research Center for Human Function Reacquisition by Engineering, Yokohama National University, Japan

Supported by;
Japanese Embassy in Spain
National Foundation,
Japanese Society for Rehabilitation of Persons with Disabilities
Japanese National Foundation, Association for Technical Aids

Conference Chair;
Prof. José León-Carrión, Ph.D.
Center for Brain Injury Rehabilitation (CRECER), Seville, Spain
Vice Chair, International Brain Injury Association (IBIA)

The 11th IBRC Proceedings
Published September 12, 2014
The journal “BIOPHILIA”

Greetings
Greetings, Conference Focusing on How to Restructure the Rehabilitation Medicine .................45
Prof. Jose Leon-Carrion, Conference chair (Spain)

Message .........................................................................................................................................................46
Prof. Shigeo Takizawa (Japan)

Dear fellows and friends...............................................................47
Prof. Gelu Onose (Romania)

Greetings........................................................................................................................................................48
Prof. Shirasawa Takuji (Japan)

Integration of the molecular Genetics and Engineering
to Accelerate Restructuring the Rehabilitation Medicine.................................................................49
Prof. Mieczyslaw Pokorski (Poland)

Message .........................................................................................................................................................50
Prof. Hajime Takada (Japan)

Message, as closing remarks...............................................................51
Prof. Raoul Saggini (Italy)

Keynote lecture (To Restructure the Rehabilitation Medicine)
Aging of Cerebral Functions:
Advances in the prevention and treatment of organic memory disorders associated with aging........52
Jose Leon-Carrion, Maria del Rosario Dominguez-Morales (Spain)

Researches for long time on the Autonomous Kinetic Rehabilitation Centering
the Motivative Exercise (Takizawa Method) To Restructure the Rehabilitation Medicine.............53
Yoshiko Morita (Japan)

Image Analysis of a Cerebral Function Clarifying To Restructure the Rehabilitation Medicine.......54
Toshiyuki Tanaka (Japan)

Neuroprotection in patients with subacute/ subchronic conditions following
severe central nervous system (CNS) lesions (with focus on traumatic, brain & spinal cord, injuries):
a modern contribution, including possibly, to restructure the rehabilitation medicine....................55
Gelu Onose

Stem Cell, Neurogenesis, and Restructuring the Rehabilitation Medicine ................................56
Takuji Shirasawa

Super Aged Society Sustainable by Restructuring the Rehabilitation Medicine ...........................57
Shigeo Takizawa
General presentation 1
Secular Change of Effect of Motivative Exercise by FNIRS Test ..........................................................59
Yoshiko Morita, Shigeo Takizawa (Japan)
Day Care Rehabilitation Enforcement Adopting the Takizawa Method and
Yearly Care Degree Changes as an Effect Judging..............................................................60
Lika Wada, Toshihiro Tachibana, Shigeo Takizawa (Japan)
Estimation of brain activity position with sensitivity matrix in NIRS measurement ..............62
Daisuke Shimizu (Japan), Toshiyuki Tanaka, Shigeo Takizawa,
Yoshiyasu Takefuji (Japan)
Effect judging by the cerebral function of Motivative exercise to passive exercise and
Progressive Resistive Exercise in a recovery rehabilitation hospital .......................................64
Shigeo Takizawa, Tsutomu Nitta , Mitchiko Matsuura, Shuji Kawai (Japan),
Yoshiyasu Takefuji

Poster session
Dystonia - the disease of the body who doesn’t obey ..........................................................65
Aurelian Anghelescu (Romania)
EARLY POST-ACUTE CLINICAL and EVOLUTIVE PARTICULARITIES of
CERVICAL SPINAL CORD INJURY (CSCI) at ELDERLY SUBJECTS.............................66
Aurelian Anghelescu, Gelu Onose, Anca Sanda Mihaescu (Romania)
Walking rehabilitation in patients with recent ischemic stroke comparative study
between in peripheral repetitive magnetic stimulation and
classical neuromuscular stimulation ......................................................................................67
Bumbea Ana Maria, Traistaru Rodica, Popescu Roxana (Romania)
Plantar support - a perspective of evaluation of children with scoliosis ................................68
Florin Dragan, Liliana Padure, Gelu Onose (Romania)
Cognitive functioning of the prelingually deaf adults ................................................................69
Mieczyslaw Pokorski and S. Klimanska (Poland)

General presentation 2
PHYSIOLOGY OF AGING AND BRAIN PLASTICITY.......................................................70
Camillo Di Giulio, Mzzatenta.A.(Italy), Pokorski M.

UPPER LIMB RECOVERY WITH NEUROCOGNITIVE REHABILITATION
METHOD AFTER CEREBRAL HEMORRHAGE: CASE REPORT ......................................71
Giovanni Barassi, Rosa Grazia Bellomo, Alexandra Di Stefano, Raoul Saggini
(Italy)
THERAPY OF SPASTICITY WITH FOCUSED ACOUSTIC WAVES BY TREATING MYOFASCIAL KEY POINTS .................................................................73
Rosa Grazia Bellomo, Giovanni Barassi, Alexandra Di Stefano, Raoul Saggini (Italy)

THE LIFE QUALITY OF FAMILIES WITH A DISABLED CHILDREN ..............75
L. Padure, V. Morcov, L.Predruca, C. Morcov (Romania)

Continuity of Life:
A novel approach to assessing recovery of people with acquired brain injury....................76
Aleksandar Janca, Zaza Lyons, Kellie Bennett (Australia)

HOME REHABILITATION MANAGEMENT IN CHRONIC STROKE: PILOT STUDY ..77
Rosa Grazia Bellomo, Alexandra Di Stefano,
Giovanni Barassi, Raoul Saggini (Italy)

Kinetic Analysis Method on Rehabilitation Trainings ......................................................79
Noriko Yoshiike (Japan)

REHABILITATION MEDICINE IN EU/ROMANIA
AS IT IS PERCEPTED BY RESIDENT DOCTORS (DREEM TEST) ..................81
Ioan-Sorin Stratulat (Romania)

Our Approach For Healthy Longevity.
- including an introduction to Japanese hot springs.- ..................................................82
Kaeko Iwanami (Japan)

Findings regarding relationships between socio-demographic, psychological and co-morbidity factors and the functional status, in geriatric inpatients ............83
A. Capisizu, S. Aurelian, A. Zamfirescu, I. Omer, M. Haras,
C. Ciobotaru, L. Onose, T. Spiru, G. Onose (Romania)

Cocont Oil and Alzheimer’s Disease .................................................................84
Daniela Pantzi Shiga (Japan)

Our long-term unitary appraisal regarding neurorestorative,
including neurorehabilitative, outcomes in patients following traumatic brain injury,
treated with Cerebrolysin.......................................................................................85
Cristina Daia, Onose Gelu, Liliana Onose, Anghelescu Aurelian,
Monica Haras, Spiru Tiberiu Anca Sanda Mihaescu (Romania)

A model of care unit: Pediatric Neuropsychomotor Rehabilitation Center
“Dr. N. Robanescu”, Bucharest .................................................................86
L.Padure, V.Morcov (Romania)
