Rehabilitation Method from Japan to the World

Taki TAKIZAWA, Shigeo

President, NPO International Biophilia Rehabilitation Academy

We received the letter of appreciation to holding the workshop biophilia 2011 of Romania from the acting ambassador of Romania in Tokyo, Petre Stoian, by the result of his assessment of the correspondence of the government of each holding country. Please look at the picture that the author received the certificate of appreciation.

Takizawa Rehabilitation Method was patented in the USA.

An autonomous kinetic rehabilitation training which trained by the patient self by using devices the unaffected side activity the affected side passivity was named the motivative exercise.

The author lectured the Takizawa Method and the motivative exercise to the medical students studying abroad from Central American countries to Cuba. It is my pleasure that it becomes the big good news for human beings to export the rehabilitation technology born in Japan by holding a workshop.

It seemed that workshop holding for teaching those was also expected from the previous correspondence of the government of each country so that he appreciated that the fact of to enable overcoming the disabilities and to prolong the elderly's healthy life expectancy.

The author introduced such a fact.

Keywords: motivative exercise, United States Patent, Romania ambassador in Japan, certificate of appreciation

It is a re-publication of the Jiji Press Welfare No.5839, p10-11, 23 August 2011. (JP), which was permitted to publish by the editor of the Journal at the time of publication.

LETTER OF APPRECIATION

International Biophilia Rehabilitation Academy
President Taki TAKIZAWA Shigeo
(Chair of the WORKSHOP "BIOPHILIA 2011")

The International Biophilia Rehabilitation Academy holds the international conference in many countries, and contributes to the improvement of people's welfare through progress in rehabilitation medicine. The activity for the functional recovery of advanced-age disabled persons is appreciated by the governments of each country.

The workshop "Biophilia 2011" of The 9th International Biophilia Rehabilitation conference will be held in Bucharest, Romania this year. It is my sincerest desire to increase a cooperative and productive relationship in this field between our two nations in the future, starting with the success of this workshop.

This letter of appreciation is presented to the president of the International Biophilia Rehabilitation Academy, Professor Taki TAKIZAWA Shigeo. On behalf of the Romanian Government, I express deep gratitude for the efforts of the persons concerned who are in charge of holding the workshop.

Petre Stoian
Charge d' Affaires a.i.
