CONTENTS

Special Issue on New Trends of Design Theory for Dynamical Systems with Semiosis

Technical View
Design Theory for Dynamical Systems with Semiosis
—Paradigm Shift from Design for Manufacture to Design for Nurture

Tetsuo SAWARAGI 399

Expository Articles
Semiosis of Teaching Operations to Industrial Robot

Yukio HORIZUCHI and Hajime MIZUYAMA 405

Design Strategy for Sound Sign
—Three Types of Sound Sign and Design Methods for Sound User Interface

Sanae H. WAKE 411

Design Principle for Legged Robots that Have Environmental Adaptability

Kazuo TSUCHIYA and Shinya AOI and Tetsuro FUNATO 418

Semiosis in Human Behavior Recognition
—Methodologies to Understand and Generate Behaviors

Hiroaki NAKANISHI 425

Semiosis in Multimodal Interaction between Robot Agents

Tetsuya OGATA and Wataru HINOSHITA 433

Editorial Essay

Shinya AOI and Tetsuo SAWARAGI 439

Book Review

Kazushi IKEDA 440
