Light-Activated Tissue Regeneration and Therapy II
Date: June/24 to 29/2007
Cite: Tomar, Portugal
Conference Co-Chairs: Juanita Anders, Josepa Rigau, and Ron Waynant
Web address: http://www.engconfintl.org/7at.html
Message from association:
Participans will discuss the latest advances in the field and measurements including the determination of the mechanisms of light activated tissue regeneration and therapy. We expect that the mechanisms will be verified by the start of the meeting. Light sources, narrow and broadband, as well as the metrology and medical outcomes they produce will be discussed.

Message from association:
The Renaissance of Art, Science & Friendship
Leonardo Longo
The series of courses and Laser Florence congresses
started in 1997 with three objectives:

- to increase the number of physicians, engineers and scientists who correctly use lasers in medicine, surgery and human sciences
- to facilitate the exchange of theoretical and practical experiences between different world wide schools of human sciences and medicine through discussion and demonstration
- to foster contacts between industry, engineering, physics, medicine and surgery. (to be continued to website)

Antoni De Gimbernat Foundation
Date: November/9 to11/2007
Cite: Cambrils(Tarragona), Spain
Chairman: Mario Trelles
Message from association:

ANTONI DE GIMBERNAT FOUNDATION GRANT 2007
Mario A Trelles
This year’s course in Vilafortuny on the subject of “Aesthetics, Dermatology, Vascular and Incisional Surgery with Lasers”
The ANTONI DE GIMBER-NAT FOUNDATION, located at the Instituto Médico Vilafortuny (Cambrils, Spain), was founded in 1990 with the board of trustees integrated by the several Governmental Institutions such as the Town Hall of Cambrils, the County Council of Tarragona, The Medical Sciences Academy of Tarragona, and the Department of Morphologic Sciences (Medical Faculty of the University of Valencia) in Spain, with the main aim of carrying out work of social interest, to improve health and the quality of life through research.
(to be continued to website)
Jointly with:
*International Academy Laser Medicine & Surgery
*Australian Medical Laser Association
*Japanese Medical Laser Association

Message from association:
NZ Laser 2008 will represent the first international conference of its kind to be held in New Zealand. The primary focus of the meeting will be on the science and art of phototherapy, laser therapy, and laser acupuncture, used for the treatment of disease, and the promotion and enhancement of health.

The Meeting will feature:
*Invited and Keynote speakers, internationally recognised as authorities within the field.
*Oral and poster communications, selected on the basis of scientific and clinical merit
*Hands on workshops
*Trade Exhibition, featuring the latest technologies and services
*Outstanding Social Programme, for partners and delegates
*A World Class venue, situated in stunning Queenstown, New Zealand
