CONTENTS

The feasibility of video-assisted thoracic surgery for pathological stage IA primary non-small cell lung cancer ........................................... Masayuki Tanahashi, et al. 2

A study of the bronchial stump closure techniques following lobectomy or segmentectomy for primary lung cancer
  — The usefulness of the simple ligation method — .................................. Yoshiaki Nakashima, et al. 10

Clinical study of eight cases of thymic cancer ........................................... Keitarou Matsumoto, et al. 15

Multimodality therapy for malignant pleural mesothelioma ........................... Tomoya Kono, et al. 20

A case of plasmacytoma of chest wall with pleural dissemination .................... Jin Sakamoto, et al. 26

A case report of calcified stone in a cyst of the middle mediastinum .................... Someya Takeshi, et al. 32

Two resected cases of pulmonary arteriovenous fistula following visualization
  and evaluation by 3D-CT and perfusion scintigraphy ................................ Masahiro Sakaguchi, et al. 35

A case of foreign body in the bronchus retrieval by rigid bronchoscope .......... Eiichi Hayashi, et al. 41

Catamenial pneumothorax: multiple perforations in the diaphragm and the coverage
  of the diaphragmatic surface by a polyglycolin mesh ................................ Teruhisa Takuwa, et al. 46

Subglottic and tracheal stenosis after tracheal intubation
  with various different management: a case report ................................... Mitsuhiro Kamiyoshihara, et al. 50

A 5-year survival case of so-called pulmonary carcinosarcoma
  with metastatic gastric tumor ......................................................... Mitsunori Higuchi, et al. 55

Right lung cancer with right aortic arch and posterior aortic
  left innominate vein ................................................................. Masaki Hara, et al. 60

A case of infective endocarditis and septic pulmonary emboli associated with leg gangrene ........................................... Hitoshi Suzuki, et al. 65

Report of huge lipoma in the post-mediastinal space treated
  by video-assisted thoracic surgery ................................................. Keisuke Nakayama, et al. 69

A case of syndrome of inappropriate antidiuretic hormone (SIADH)
  after the resection of lung cancer ................................................... Mitsunori Higuchi, et al. 74

A case of empyema with bronchopleural fistula developed during a bout
  of old pulmonary tuberculosis cured by pleurolysis
  and decortication using a thoracoscope .......................................... Haruka Takeichi, et al. 78

A case of juvenile myasthenia gravis with failure to thrive due
  to long-term prescription of prednisolone ....................................... Takuya Onuki, et al. 82

Bilateral sleeve lobectomy for synchronous multiple primary lung cancer ...... Hyung-Eun Yoon, et al. 87

A case of anomalous systemic arterial supply to the basal segment
  of the left lung with hemoptysis .................................................. Jun Hanaoka, et al. 92

Two cases of adenocarcinoma of the lung
  with negative FDG-PET scanning .................................................. Masashi Gotoh, et al. 99
