Information for Contributors

1. Papers should be in English and are accepted on the understanding that they have not been published and are not offered for other journals.
2. Submitted manuscripts will be sent to one or more selected reviewers for opinion on the suitability of their publication in Clay Science.
3. Authors are encouraged to send submissions to Clay Science in electronic file using PDF. However, conventional, hardcopy submissions are also available. Two copies of each manuscript should be submitted in typescript, with double spacing and ample margins, one copy being the original.
4. Tables, figures and legends should be as separate sheets of paper. The original and preferably one copy of each illustration are required. Figures should be drawn on white paper or blue-ruled (and only blue) co-ordinate paper in black ink. Lines, symbols and letterings should be drawn boldly enough to allow for proper reduction. Photographs should be positive glossy prints.

6. All manuscripts must contain the address to which proofs should be sent.
7. Authors are requested to submit the final text in electronic files recorded 3.5” diskett or CD. It is necessary to indicate the name and version of the word-processing program by which the text was prepared, the format of the text files, and the type of computer used.
8. Authors are required to purchase 50 offprints for an article. Additional offprints can be ordered on the return of proofs.
