Contents

Symposium

Design of Acid-Base Bifunctional Catalysts by Immobilization of Primary Amine into Proton-Exchanged Montmorillonite and Its Application toward Acid-Base Reaction Sequences

Ken MOTOKURA and Yasuhiro IWASAWA (58)

Alteration of Bentonite as Engineered Barrier of Radioactive Waste Disposal Facility under Alkaline Conditions

Shingo YOKOYAMA (64)

Research for Application of Porous Organic Pillared Clays as an Adsorbent

Ryo ISHII (70)

Atomic Distribution of Muscovite Surface - Water Interfaces

Hiroshi SAKUMA and Katsuyuki KAWAMURA (77)

Adsorption as Elementary Processes for Water-Mineral Interactions

Keisuke FUKUSHI (82)

Original Articles

Evaluation of the Amount of Carbon Storage of Carbonized Paper Slag (CPS)

Takao ANDO, Mayumi JIGE, Takabumi SAKAMOTO, Kimio HIYOSHI, Naoto MATSUDE and Teruo HENMI (92)

Memorial of Dr. Z. ITOU

Ryuji KITAGAWA (98)
