Preface

Special Issue of the AJK2019, ASME-JSME-KSME Joint Fluids Engineering Conference 2019

In 2011 JSME hosted the first ASME/JSME/KSME Joint Fluids Engineering Meeting (AJK2011) in Hamamatsu, Japan. Four years later KSME hosted AJK2015 in Seoul, Korea. After those two very successful conferences AJK2019 was held in San Francisco, USA, from July 28 to August 1, 2019, hosted by ASME Fluids Engineering Division. This four-year cycle stimulated international collaboration, bringing the global fluids engineering community together. The Special Issue of the AJK2019 was thus planned to record the selected papers from the participation of JSME members to this conference.

Among the total number of 484 papers and presentations during the four-day conference, the authors of 65 papers agreed to transfer the copyright of their papers to JSME. The articles included in this special issue were submitted by some of those authors to the JFST and then went through its regular review procedure. The papers were handled by the conference chair, vice-chair, and the chairs who represented JSME at the 6 technical tracks of AJK2019, who are all listed below as Guest Editors.

Guest Editors

Shinnosuke OBI, Guest Editor-in-Chief

Koji FUKAGATA, Guest Editor

Masaharu KAMEDA, Guest Editor

Chisachi KATO, Guest Editor

Yohei MORINISHI, Guest Editor

Yuichi MURAI, Guest Editor

Satoshi WATANABE, Guest Editor

Masao WATANABE, Guest Editor
