THE JOURNAL OF
JAPAN INSTITUTE OF NAVIGATION

SEPTEMBER 2010 VOL.123

CONTENTS

1. Background Condition of the Visual Environment at Sea
   …… Kazuya SAKAMOTO, Masao FURUSHO, Ken-ichiro KAWAMOTO and Yoshiji YANO……( 1)

2. Ship Dominance Region in Route
   …………………… Ruri SHOJI, Tadasuke FURUYA, Akira KAWAGUCHI and Masaaki INAISHI……( 7)

3. Marine Traffic Analysis of Three Major Bays
   —Ship Handling Difficulty of Ship Equipped with AIS—
   ………………………………… Hiroaki SETA, Mirai Oki, Hideo USUI and Masatoshi SAKAIDE……( 13)

4. Weather Routing between Japan and North America
   —International Hub Ports Focusing on Passage Time—
   ………………………………… Yoichi SHIMADA, Keiko TAHASHI and Shigeaki SHIOTANI……( 21)

5. A Study on Prediction Method of Zonal Index for Weather Routing
   ………………………………………… Ruri SHOJI, Hisaki NISHIYAMA and Kohei OHTSU……( 29)

   —Accuracy Evaluation and Performance Benchmark of the Sea Surface Wind Prediction—
   ……………………………………… Takeshi YOKOI, Ruri SHOJI, Hideo YABUKI and Kohei OHTSU……( 39)

7. A Study on Transmission System for Outboard Image Using Information of Ship's Position
   …………………………………………………………………………………………………………………..Kenji HONDA……( 47)

   ……………… Shigeaki SHIOTANI, Han CHEN, Teruo OHSAWA and Eiichi KOBAYASHI……( 53)

9. Development of the all-Day, all-Weather Hybrid Marine Surveillance System
   ……………… Masahiko SASANO, Jun KAYANO, Yoichi FUTAKI and Katsuya MAEDA……( 61)

10. Development of Track Estimation System for Floating Object Surveillance
    …………NGUYEN Minh Duc, Monotobu IMASATO, Yoichi FUTAKI and Takayuki ASANUMA……( 69)

11. Verification of Channel Width and Depth Calculation Method Based on
    "New Design Standards for the Channel in the Port and Harbor" by Existing Large Vessels
    ……………………………… Kaku ITO, Kiyokazu MINAMI, Masanori TSUGANE and Kohei OHTSU……( 77)

12. The issue of vessel traffic Management in harbors
    —Osaka Area and Kobe Area in Hanshin port—
    ……………………………………… Shio SAITO, Shoji FUJIMOTO, Masaki FUCHI and Masao FURUSHO……( 85)

13. Analytical Approach to the Navigational Behavior By the Bridge Simulator Experiments
    …………Chihiro NISHIZAKI, Kenji YOSHIMURA, Kenkichi TAMURA and Nobuo MITOMO……( 95)

14. A Build of the Sensor Network for an Environmental Observation in the Toyama Bay
    —The Proposal of a System and a Trial Production of a Node Buoy—
    …………………………………………… Masashi YOSHIDA, Hajime CHIBA and Harumasa HOJO……(103)
15. Data Collection System to Understand Marine Traffic Data from Ship and Shore.  
..................................... Osamu SUZUKI, Yuhki TANAKA, Hiromune NAMIE and Hajime FUJI——(111)
16. A Basic Study on Fender Monitoring System by Radio Wave for Floating  
Type Pneumatic Fender  
........... Shigeki SAKAKIBARA, Michito KANEKO, Shuu YAMADA and Koji NAKATANI——(119)
17. On the Prediction of Ship's Motion for OZT by Using Kalman Filter  
...................................... Jun KAYANO, Hayama IMAZU, Hitoi TAMARU and Takahiko FUJISAKA——(129)
18. Evaluation of Local Ionospheric Delay Gradients on GPS signals in Japan  
.................................................. Takayuki YOSHIHARA, Susumu SAITO and Naoki FUJI——(135)
Refugee of Harbour  
.......................................................................................................................... Kenji SASA and Atilla INECIK——(143)
20. A Consideration of Roll-Coupling Effect on Ship Maneuverability  
.......................................................................................................................... Hironori YASUKAWA——(153)
21. Comparative Studies of Small Purse Seiner in North Sulawesi, Indonesia  
............... Heffry Veibert DIEN, Nobuo KIMURA, Yasuzumi FUJIMORI and  
Ixchel Feibe MANDAGI——(159)
22. The Health Management of Cadets before the Sea Training  
........................................................... Naoko FUKUDA, Ruri SHOJI and Kohei OHTSU——(165)
23. Sea-, Ship-, and Seaman-Orientation of Fisheries High School Students: Focusing on the  
Education by Using Training Ships  
.............. Masaya YUKIHIRA, Hisaaki TAKAYAMA, Kenichi SHIMIZU and Masaji GODA——(173)
24. The study on the Education of Work Improvement for Work Safety  
........................................... Shuji HISAMUNE, Hiroaki FUKUI, Tomoki OKU and Nobuo KIMURA——(181)
25. A study of the load acting on the walls of the container laden with liquid bag  
.......................................................................................................................... Shigeo MITA——(187)
26. Method of Examination for Marine Sessile Organisms on Anti-fouling Paint  
Using the Ship- II.  
......................................................... Shigeaki SHIOTANI, Hidenari MAKINO, Youichi SHIMADA——(195)
