Some observations on the morphology and physical characteristics of synthetic diamond
H. P. Bovenkerk

Steep-sided trigons on diamonds
E. M. Wilks
Phil. Mag. 6, 1089–1092 (1961)

Synthetic diamonds; growth and etch phenomena
S. Tolansky

Diamond synthesis: observations on the mechanism of formation
A. A. Giardini and J. E. Tydings
Amer. Mineral. 47, 1393–1421 (1962)

Comparative optical and interferometric studies on synthetic diamonds
S. Tolansky

Miro-disk patterns on diamond dodecahedora
D. C. Pandeya and S. Tolansky
