Journal of The Japanese Association of Crystal Growth

Vol. 9 No. 4, December 1982

Review Article
The Effect of Concentration and Temperature Gradients on Crystal Growth from Aqueous Solutions
Tomoya OGAWA and Ken-ichi OHTSUCA • 1 (161)

Original Article
Habits of Fine Metal Crystallites Made by Gas-evaporation Method (II) As, Sb and Bi
Tsugio OKAZAKI • 15 (175)

Short Note
The Construction of a Thermally Regulating Stage for Microscopic Observation
Koji SHIGEMATSU, JIM Wei-Qing and Hiroshi KOMATSU • 22 (182)

Abstracts (Step pattern / Morphology)

Collected Data of Fundamental Importance for Crystal Growth Studies

Book Review

The Journal is published quarterly by the Japanese Association of Crystal Growth (R. R. Hasiguti, President)
c/o Nihon Gakkai Jimu Sentä, 2-4-16, Yayoi, Bunkyo-ku Tokyo ☛ 113

Editorial Committee
I. Sunagawa, Chairman (Tohoku University)
H. Komatsu (Tohoku University)
T. Nishinaga (Toyoohashi Institute of Technology)
T. Ogawa (Gakushuin University)
T. Ohachi (Doshisha University)
Shin. Takasu (Toshiba Research and Development Center)
