Human factors in the design of electric home appliances
M.Tatsumi (Matsushita Electric Industrial Co.,Ltd.)

1. Human factors in the design of electric home appliances

(1) Simple, easy-to-use design

(2) Improved safety and usability

(3) Improved efficiency

(4) Improved design

2. Design concept for home appliances

(1) Easy-to-use design

(2) Improved safety and usability

(3) Improved efficiency

(4) Improved design

3. Conclusion

(1) Improved design

(2) Improved safety and usability

(3) Improved efficiency

(4) Improved design

4. References

(1) Improvement of safety and usability

(2) Improvement of efficiency

(3) Improvement of design

(4) Improvement of design
