Originals

Frequency Response of Brain Near-Infrared Spectroscopy (NIRS) Signals at Forehead to Systemic Hemodynamic Changes During Sinusoidal Lower Body Negative Pressure

K. Ishibashi, M. Otaka, Y. Tsunetsugu, K. Iwanaga 215

Effect of Hyperventilation-Induced Decrease in Cerebral Blood Flow on Cognitive Function in Healthy Students

H. Tsukamoto, T. Hashimoto, A. Hirasawa, H. Hasegawa, S. Ogoh 225

Reports

Effect of Two Different Mattress on Sleep in Hospitalized Patients

T. Kogure, Y. Idehara, T. Inoue, S. Shirakawa 233

Relationship Between Exercise Habits and Knowledge of Squat Exercise in University Students

K. Oshita, K. Yamaguchi, Y. Oyama, G. Hagiwara, K. Funatsu 239

Short Communication

The Relationship Between Psychological Traits and the CAR (Cortisol Awakening Responses) in Japanese Males

D. Choi, R. Matsumoto, Y. Egashira, M. Motoi, T. Nishimura, S. Watanuki 247

Special Issue on Variations in Physiological Functions

Scientific Insight into “Group” from the Perspective of Socio-Ecology — Environment Adaptability Through Flexible Society —

Y. Otani 253

Scientific Insight into “Group” from the Perspective of Social Psychology: Collaboration with Physiological Anthropology

K. Nawata 257

Scientific Insights into Population from the Perspectives of Genome Diversity

K. Nakayama 263

Scientific Insight into “Group” from the Perspective of Human Physiological Value — Human Cold Adaptation and Physiological Polytypism of Thermogenesis —

T. Nishimura 269

Special Issue on the Scientific Insight into Population

Preface

T. Maeda, S. Higuchi 275

Structure of Variation in Physiological Traits.

H. Kobayashi 277

Individual Variations in Circadian Rhythm Functions

S. Kitamura 283
