CONTENTS

Editorial
In Publication of a Special Number of Papers on Radiological Technology in Relation to Health Science HIROKO NISHIDE, et al. 739

Special Programs
Topics
Current Status and Issues of Cancer Control Strategy in Japan TOMOTAKA SOBUE 740
The Actual Situation of Radiological Screening in USA JUNJI SHIRAISHI 745
Effectiveness of Mammographic Screening and Tasks of Screening for Breast Cancer in Japan TADAOKI MORIMOTO, et al. 749
PET and Cancer Screening SEIJI YASUDA, et al. 759
The Subject of the PET Medical Checkup Considered from a Viewpoint of Radiological Protection HIROSHI WATANABE 766
Process of Development and Spread of GE PET-CT YASUHARU SEKIGUCHI 772
Clinical PET Screening Support Service KINYA OOTSUKA, et al. 780
An Assessment of the Potential for Interpretation of CT Images by Radiological Technologists TORU MATSUMOTO, et al. 791
CAD for Digital Chest Radiograph KEIJI YAMAMOTO 800
Mammography Reading with CAD (Computer Aided Detection): Experiences and Problems HIROSHI NAKAHARA 807
Development of Real-time Tissue Elastography KAZUTAKA OKADA, et al. 811

JIRA Topics
Handling of Used Medical Device TOSHIO HAYAKAWA 817

Scientific Papers
Originals
Fractal Analysis of Trabecular Architecture: With Special Reference to Slice Thickness and Pixel Size of the Image TATSUSHI TOMOMITSU, et al. 819
CR-mammography with Pixel Size of 50 μm and Dual-sided Reading System: Effect of the Oblique Incident of the X-ray Beam on Imaging Properties and Detection TADAMITSU IDEGUCHI, et al. 833
Evaluation of Intra-abdominal Fat Distribution Using X-ray CT Data for Detection of Rectal Cancer TOSHIHIRO OGURA, et al. 840

Note
Present Status and Issues Regarding X-ray Medical Checkup Vehicles in Preventive Medicine: Usefulness of Mass Screening for Lung Cancer by an X-ray Medical Checkup Vehicle YASUYUKI TAKAHASHI, et al. 847

Clinical Technology
Study of the Usefulness of Large Intestine Screening Inspections Using Multi-slice CT (MSCT) MICHIIRO YAMASAKI, et al. 852
Current Situation and Problems of PET Examinations HIROSHI CHIHARA, et al. 861
Ultrasonographic Study of the Hip Joint in Infants YASUKO MINAGAWA, et al. 868

Data
Screening for Lung Cancer by Low-dose Computed Tomography SHIIKO GOMI, et al. 874
Current Situation and Future of Gastric Cancer Screening Examinations: From the Viewpoint of Gastric X-ray Screening MAYUMI KITAGAWA 881

(Jpn. J. Radiol. Technol. Vol. 61 No. 6)
