Case Reports

A Case of Bronchogenic Cyst Diagnosed by Transtracheal Endoscopic Ultrasonography ................................................................................................................. Wataru Saito, et al. 21

Three Cases of Intractable Pneumothorax Treated Successfully by Bronchial Embolization using Silicon ............................................................................................................ Takeshi Horiuchi, et al. 25

Bronchoalveolar Lavage and Gallium Scintigraphy Were Useful for Diagnosis of Pneumocystis Carinii Pneumonia .......................................................................................... Hiroshi Kuraishi, et al. 31

A Case of Recovery of Respiratory Function after Long Term Atelectasis by Resection of a Tuberculous Main Bronchus and Tracheo-bronchial Reconstruction .......................................................................................... Tetsushi Suito, et al. 36

Two Cases of Bronchial Atresia ......................................................................................... Niro Okimoto, et al. 41

A Case of Endobronchial Hamartoma Removed by Bronchoscopic Nd-YAG Laser Therapy and Electrosurgical Snaring ......................................................................................... Toshiaki Masaoka, et al. 44

Two Cases of Severe Legionella Pneumonia Early Diagnosed by Gimenez Stain of BALF ................................................................................................................................. Hidekazu Matsushima, et al. 49

Two Cases of T-tube Tracheal Stent for Subglottic Stenosis .................................................. Shinji Akamine, et al. 55

Breakage of the Cytology Brush during Bronchoscopy .......................................................... Toshihide Wakamatsu, et al. 60

A Case of Squamous Cell Carcinoma of the Chest Wall in a Patient with Chronic Empyema ............................................................................................................................... Haruhiko Aisaka, et al. 64

A Case of Secondary Racemose Hamangiomata of the Bronchial Artery with Hemothysis ................................................................................................................................. Nobuhisa Ishikawa, et al. 69

A Case of Endobronchial Tuberculosis with Ciacrical Stenoses Successfully Treated by Combination of Endoscopic Nd-YAG Laser and Balloon Dilatation Therapy ....................................................................................................... Kiyoshi Matsumoto, et al. 109

A Case of Post-intubation Subglottic Stenosis in a Child ................................................................ Koichi Fujiu, et al. 116

Electrosurgery with a Flexible Bronchoscopy for Central Airway Lesions ........................... Takuji Kiryu, et al. 120

A Case of Endobronchial Lipoma with Right Upper Atelectasis .................................................. Takaaki Ishiyama, et al. 124

A Case of Esophago-Pulmonary Fistula by a Self-Expanding Esophageal Stent Soon after Stent Insertion .................................................................................................................... Nobuhisa Ishikawa, et al. 129

A Case of Traumatic Complete Ruptures in The Lateral Tracheal Wall and The Right Bronchus in The Patient Saved by an Emergent Operation ................................................................. Suguru Kimura, et al. 134

Severe Airway Damage Following Inhalation of Ammonia: A Case Report ................................. Hiromi Tomioka, et al. 138

A Case of Pulmonary Aspergillosis Revealed by Bronchoscopy and Successfully Treated with Itraconazole .......................................................................................................... Kazuhiko Suzuki, et al. 145

A Case of Unclassifyable Bronchial Aspergillosis ........................................................................ Wataru Saito, et al. 151

A Case of Hypersensitivity Pneumonitis Caused by Budgerigars (Bird Breeder’s Lung) ............................................................................................................................. Takashi Niimi, et al. 157

Lung Adenocarcinoma with Cavitary Lesion and Endobronchial Ulcer Resembling Endobronchial Tuberculosis ............................................................................................................... Kenji Tsushima, et al. 168

A Case of Lung Carcinosarcoma with Rapid Endobronchial Growth ................................. Masaharu Shinkai, et al. 168

A Case of Photodynamic Therapy for Metastatic Lung Tumor with Obstruction of the Left Main Bronchus .................................................................................................................. Yasushi Yamamoto, et al. 170

A Case of Brainbridge Type 1 Esophagobronchial Fistula in an Adult ................................. Masato Kanzaki, et al. 171

Bronchopulmonary Arterial Aneurysmal Fistula Which Caused Massive Hemothysis ................................................................................................................................. Ismid D. I. Busroh 450
Experience with Self-expanding Metallic Stents (SEMS, Ultraflex™ stent) for Postoperative Bronchial Stenosis .................................................. Shuhei Inoue, et al. ........ 454
Resuscitative Divided Polypectomy of a Tracheal Pleomorphic Adenoma before Elective Surgery ................................................................. Masaki Hara, et al. ........ 459
A Case of Wegener's Granulomatosis Presenting with Marked Bronchial Involvement ................................................................. Akihiko Sudou, et al. .......... 468
A Case of Pulmonary Aspergilloma with Allergic Reaction that Produced Unique Bronchoscopic Findings ........................................ Tsutomu Hattori, et al. .......... 473
A Case of Endobronchial Sarcoidosis Presenting as a Submucosal Tumor ...... Nobuko Uehara, et al. .......... 481
A Case of Pulmonary Cavitary Lesion due to MRSA infection Complicated with SLE ................................................................. Tessei Tsuchiyama, et al. .......... 485
Ticlopidine-induced Pneumonitis ........................................................... Mitsunobu Nishimoto, et al. .......... 489
A Case of Tracheal Resection and Reconstruction for Post-intubation Tracheal Stenosis ................................................................. Toshihiro Okamoto, et al. .......... 532
A Case of Excretion of a Foreign Body from the Bronchial Stump Long after Extrapeural Pneumonectomy ........................................... Yasunori Kurahashi, et al. .......... 536
A Case of Endobronchial Hamartoma Removed by Endoscopic Electrosurgical Snaring ................................................................. Shinji Kikuchi, et al. .......... 540
A Case of Recovery from Postextrapeural Pneumonectomy Respiratory Failure and Bronchopleural Fistula by Differential Lung Ventilation and Stenting Using a Customized Dumen Y Stent .................................................. Takahiro Okabayashi, et al. .......... 550
Comparison of 3D-CT and Fiberoptic Bronchoscopy in Evaluation of a Case of Bronchial Tuberculosis .................................................. Yoshitaka Morimatsu, et al. .......... 556
A Case of Mucosa-associated Lymphoid Tissue (MALT) Lymphoma with Chromosomal Abnormality ........................................................... Susumu Oguri, et al. .......... 595
A Case of Lung Cancer Treated by Bronchoplasty without Lung Resection ................................................................. Tetsushi Suito, et al. .......... 600
A Case of Pulmonary Carcinoma with Permanent Tracheostomy using a Tracheopart Tube* ............................................................... Motoki Sakuraba, et al. .......... 604
Endotraceobronchial Stent Placement for Tracheobronchial Stenosis after Treatment for Tracheobronchial Tuberculosis ................................ Yasuo Iwamoto, et al. .......... 607
A Case of Saber-sheath Tracheomalacia Diagnosed 9 Years after Ventilation Support with Tracheostomy ................................................................. Junichi Nakagawa, et al. .......... 612
A Case of Bronchial Artery Aneurysm Detected by Regular Health Screening ................................................................. Noriaki Takahashi, et al. .......... 616
