CONTENTS

The Journal of the Japan Society for Bronchology
Vol. 26, No. 2 March 2004

Original Articles
Tracheobronchial Stenting ........................................... Toshiji Ishiwata, et al. ............................... 113
Airway Stent Implantation for Tracheobronchial Stenoses
Caused by Malignancies ........................................... Takahiro Okabayashi, et al. ......................... 120
Bronchoscopic Treatment of Central Airway Stenosis :
Nd-YAG Laser Treatment vs. Stent Treatment .................. Kumio Yokote ........................................ 126
Complications of Dumon Stents and Ultraflex Stents
for Airway Stenosis ................................................... Seiichi Nobuyama, et al. .............................. 132
Clinical Evaluation of Placement of a Silicone Stent
in Tracheobronchial Disorders .................................. Keigo Takagi, et al. .................................... 138
Self-expanding Nitinol Stent in Tracheobronchial Stenosis  Shinya Ito, et al. ................................. 145
Endotracheal Oxygen Concentration
During Bronchoscopic Procedures ............................... Hirokazu Aikawa, et al. .............................. 154

Case Reports
Brachytherapy and Placement of a Dumon Tube for a Patient
With Tracheal Stenosis Due to Recurrent Primary Lung Cancer Koichiro Kobayashi, et al. ..................... 149
A Case of Tuberculous Empyema With Fistula
Following Surgery for Lung Cancer in Which Cure Was Attained
Using the Endobronchial Watanabe Spigot ........................ Osamu Kawamata ................................. 159
A Case With Congenital Bronchial Atresia
Associated With Intrapulmonary Pulmonary Sequestration Katsuhiro Aoyama, et al. ......................... 164
A Case of Metastasis From Urinary Bladder Cancer
With Stenosis of the Bronchus ..................................... Hirokazu Taniguchi, et al. ........................... 169
Nasal Continuous Positive Airway Pressure for Relieving
Airway Stenotic Symptom in End-stage Lung Cancer Tetsuro Inoue, et al. ................................. 174
A Case of Nodular Sarcoidosis 9 mm in Diameter Diagnosed
by CT-guided Transbronchial Biopsy Using an Ultrathin Bronchoscope
With Virtual Bronchoscopic Simulation ........................... Junko Ohmuro, et al. ............................. 178
