Original Article
Analysis of Airway Stent Procedure for Advanced Lung Cancer
Based on Analysis of Fatalities Within Three Months
Following the Procedure .......................................................... Hiroki Hayashi, et al. .......................... 109

Case Reports
A Case of Mucosa-associated Lymphoid Tissue (MALT) Lymphoma
Combined with Nontuberculous Mycobacteriosis
and Lung Cancer ................................................................. Takahiko Otsuki, et al. ...................... 113
Development of a Bronchial Anastomosis Procedure for Two
Bronchial Stumps with a Substantial Size Discrepancy .................. Hiroyuki Fujimoto, et al...................... 120
An Adult Surgical Case of Congenital
Bronchoesophageal Fistula .................................................. Katsuyuki Miyazu, et al. ...................... 127
Mediastinal and Hilar Lymph Node Carcinoma Diagnosed Using
EBUS-TBNA and Successfully Treated with Concurrent
Chemoradiotherapy: A Case Report ......................................... Chihito Komaki, et al. ...................... 133
Double Y-stent Placement on the Main Carina and the Carina
Between the Right Upper Lobe Bronchus and the Truncus
Intermedius in a Case of Small Cell Lung Cancer ....................... Rie Tsuboi, et al. ......................... 139
A Bronchial Patch-closure Using a Pericardium and Intercostal
Muscle Flap for a Patient with Lung Cancer ............................. Yasuhiko Ohta, et al. ....................... 144
A Case of Burkitt Lymphoma Diagnosed by Endobronchial
Ultrasound-guided Transbronchial Needle Aspiration ................. Makoto Nakao, et al. ....................... 148
A Case of Tracheal Stent Insertion Using Flexible Bronchoscopy,
a Laryngeal Mask Airway and Target-controlled
Infusion of Propofol ............................................................. Shoji Nakata ......................... 154
A Case of Endobronchial Metastasis from Renal Cell Carcinoma
Removed by Bronchoscopic Electrosurgical Snaring .................. Masahiko Takahashi, et al. ...................... 159
A Case of Typical Carcinoid with Local Recurrence and
Multiple Liver Metastasis Observed for 15 Years
After Radical Operation ..................................................... Hirotaka Nishikiori, et al. ...................... 164
A Case of Early Stage Central Lung Cancer
Treated by Microwave Coagulation Therapy ............................ Takahiko Oyama, et al. ...................... 169
Bronchial Artery Embolization and Local Ethanol Injection
Before Interventional Bronchoscopy in Case
of Bronchial Carcinoid ........................................................ Naoki Kubo, et al. ...................... 175
A Pediatric Case of Removal of a Bronchial Foreign Body
Using a Laryngeal Mask Airway ............................................ Hiroaki Toba, et al. ...................... 180
Submucosal Emphysema of the Tracheal Wall Combined
with Massive Mediastinal Emphysema During the Treatment
for Asthma Exacerbation .................................................... Sodai Narumi, et al. ...................... 184
A Case of Pleomorphic Carcinoma of the Lung
Which Was Diagnosed by Transbronchial Biopsy ...................... Satoko Shimadu, et al. ...................... 189
