| Short Letters | 1 | Yuji YOSHINAGA and Hiroaki KAWABATA  
A Study on the Early Proficiency Feeling in the Mastery Process of Touch-typing |
| 7 | Ken YOSHIDA  
The Survey on Participants in the Mobile Museum |
| 13 | Takashi OKUDA  
Modeling and Analysis of Computer Laboratory at University |
| 17 | Yuko YOSHIMOTO, Junko KAGAWA, Yoshimasa SUGIMOTO, Takanori MAESAKO, Takashi KURODA and Osamu MORIYAMA  
Case Study of Behavioral Aspects under HyperMirror System through "Origami" and "Fukupalari" Activities |
| 23 | Hisashi UEHACHI and Tomoko SUZUKI  
Effects of Goal-Instructions and Effort-Information on Competence-Evaluations and Emotional Experiences |
| 29 | Kouji MATSUISHITA  
Research on Students' Learning Votio on Integrative Learning at Elementary School |
| 33 | Yoshiaki SHIBATA and Ryo OSAWA  
Development of a Peer Evaluation System and Its Application to the Information Education Class in University |
| 39 | Fumimori NAKAMOTO  
An Examination of Creativity for Young Children with Computer Drawing Activities in Their Early Childhood Classrooms |
| 45 | Keiichi KOKAYASHI  
Junior College Students' Beliefs about Functions of Note-Taking/Reviewing and Their Behaviors |
| 49 | Jun SATO  
A Study of Teacher's Instruction of Learning Strategies |
| 53 | Mizuho Mouri, Nireka ADACHI and Akira SAKAMOTO  
The Persistency of the Effect of Sociality Training with the Internet |
| 59 | Hironari NOZAKI, Shoichi YOROYAMA and Yasutaka SHIMIZU  
An Analysis of Kanji Word Frequency in Newspaper Articles |
| 63 | Minoru NAKAYAMA, Kazumasa MANO and Yasutaka SHIMIZU  
An Influence of Sound Circumstances for the Answering Response and Nose Temperature |
| 67 | Keiichi SAKURAI  
Development of a System for Detecting C Program Errors to Support Programming Exercises—Focusing on the Errors not Detected by a Compiler |
| 71 | Toshifumi TODA  
Research about a Training Program Based on the Opinion Poll about Teachers' Information Ethics |
| 77 | Shinichi NAKANE and Kazuhiko SHOWJI  
Development and Use of the Learning Environment on Network for Supporting Collaborative Learning |
| 83 | Koichi FUKUMIZU, Hisaaki NAGASE and Kazuhiko SHOWJI  
Development of a Digital Portfolio System That Assists Reflection and Its Application to Learning |
| 89 | Ako IMAI, Toshihisa NISHIMORI, Jun NAKAIHARA, Hideya MATSUKAWA, Shingo YAMASHIRO, Yoshimasa SUGIMOTO and Keizo NAGAOKA  
Development and Trial of Web Based Game on CSCL Environment |
| 95 | Junko AKIZUKI and Kazuhiko SHOWJI  
Practical Research of Mutual Understanding by Using Virtual Space |
| 101 | Koji MOMOSE and Hiroyuki AKAMA  
Development and Evaluation of World History Learning Support System Using a Dynamic Historical Map |
| 107 | Masahiro AKIMOTO  
School Diagnosis for School Based Research Aiming at SBCD by a Keyword of "Resources" Suggestions from Actual Data of Instructional System in School of the 80's |
113  Jun TAKAHASHI, Jun-ichi YAMANISHI and Kazuo SASAKI  
Understanding of Icon Image Depend on Age or Experience  
117  Toshihiro HAYASHI, Masakuni SAGATA and Yukuo HAYASHIDAI  
Prototyping of a Video Data Transmission System Oriented to Remote  
Education by Super High-Speed Network  
123  Tatsuya MARUYAMA  
An Analytic Study of Junior High School Student's Communication Behavior  
in CMC Environment  
129  Takahisa FURUTA, Mitsuhiro FUKUSHIMA and Masayuki ICHIMURA  
A Study of Conditions of Effective Educational Material for Robotics in  
Technology Education in Junior High School  
135  Akira YAMADA and Heisaku MAEDA  
Development of Idea Exchange System on the Internet  
139  Kanji HIMENO  
An Analysis on Teacher's Cognition by Use of Partitioning of Teaching  
Process  
145  Toshio MOCHIZUKI, Hironori EG1, Shigeto OZAWA and Osamu INOSHITA  
Relation between Face to Face and Computer-mediated Communication on  
Collaborative Learning  
149  Kenzi WATANABE, Makoto OTANI, Hisaharu TANAKA, Yoshinori ISAGAI and Hiroki  
KONDO  
A Report of the Distance Classroom Using High Quality Video/Audio Stream  
on the Japan Gigabit Network—An Analysis of the Influence of Packet-Loss  
on the Quality of the Stream  
155  Yukari KATO, Tatsunori MATSUI and Toshio OKAMOTO  
Analysis of the Strategic Activation of Visual Information in Academic  
Reading Comprehension  
161  Kimihito MATSUAGA, Takanori MARASAKO and Katsuo SUGAI  
Evaluation of a Mathematical Class Using the Simulaton for Educational  
Materials in an Elementary School  
167  Hitoshi MIYATA and Kazuhiko ISHIHARA  
A Trial of Moral Education in Informatics for Elementary School Students:  
Using the Web-based Instructional Material That Some Troubles are Embed-  
ed Intentionally in  
173  Tsukasa HIRASHIMA, Kana TOKUNOU and Akira TAKABACHI  
Error-Visualization of Bugs in Multi-digit Subtraction  
179  Hidehiko AGATA, Mitsuo NAMIKI, Shigechika AKAWA, Masamitsu GOSHIMA, Yasu-  
shi YAMAMOTO and Masuya NAKAYAMA  
An Evaluation of an Astronomical Public Lecture with a Live Internet  
Broadcasting System  
185  Hana YOSHIMURA, Kenji NAYAMA, Miyako TAZAKI and Ruyuchi HIRABAYASHI  
Development and Evaluation of a Multimedia Picture Book for Kindergartners  
189  Seiichi YAMADA, Tomoo YANASE and Fumio YAMAO  
Influence of CSCL Environment upon Learning in Small Scale Elementary  
Schools  
195  Hiroko KANAI  
What Can Students Learn from the Collaborative Learning with Information  
and Communication Technology?  
199  Yu NAKAHASHI  
Curriculum Development of “Problem-Solving Skills” as the First Step for  
Integrated Study  
205  Shinichi WATABE and Tomoyoshi OYAMA  
An Evaluation Study of New Behavior Observation Method Using 3DCG  
Technology and Development of 3DCG Movie Inventory of Autistic Behavior  
209  Masato WADA  
The Research of the Measurement of Factors Influencing Internet Anxiety  
and the Reduction of Internet Anxiety—In the Process of Designing Web-  
Based Teaching Materials
