Contents of Volume 64

No 1, February 2018

Review
NISHITO Y and KAMBE T: Absorption Mechanisms of Iron, Copper, and Zinc: An Overview ................................................................. 1–7

Regular Paper
ZHAO M, ZHOU J, CHEN Y-h, YUAN L, YUAN M-m, ZHANG X-q, HU Y and YU H: Folic Acid Promotes Wound Healing in Diabetic Mice by Suppression of Oxidative Stress ..................................................................................................................... 26–33
WADA A, SONODA C, MAKINO Y, HAMA Y, NAGAHAMA A and HARADA D: Effects of Parenteral Amino Acid Administration on the Postoperative Nutritional Status and Wound Healing in Protein-Malnourished Rats ............................................. 34–40
UEDA T, TATEGAKI A, HAMADA K, KISHIDA H, HOSOE K, MORIKAWA H and NAKAGAWA K: Effects of Pediococcus acidilactici R037 on Serum Triglyceride Levels in Mice and Rats after Oral Administration ................................................................. 41–47
ZHANG T, LIU P, SUN Y, REN N and NIE S: The Impairment of Trans Fatty Acids on Learning, Memory and Brain Amino Acid Neurotransmitters in Mice ................. 63–67
CHIKAZAWA M and SATO R: Identification of Functional Food Factors as β2-Adrenergic Receptor Agonists and Their Potential Roles in Skeletal Muscle .............. 68–74

Errata ............................................................................................................................. 81
No 2, April 2018

Review

NISHIMUTA M, KODAMA N, YOSHITAKE Y, SHIMADA M and SERIZAWA N: Dietary Salt (Sodium Chloride) Requirement and Adverse Effects of Salt Restriction in Humans .............................................................. 83–89

SHIBATA K: Organ Co-Relationship in Tryptophan Metabolism and Factors That Govern the Biosynthesis of Nicotinamide from Tryptophan .................. 90–98

Regular Paper

NAKANO S, SUZUKI M, MINOWA K, HIRAI S, TAKUBO N, SAKAMOTO Y, ISHIJIMA M, HOSHINO E, TOKITA A and SHIMIZU T: Current Vitamin D Status in Healthy Japanese Infants and Young Children .......................................................... 99–105

BORGES CC, SALLES AF, BRINGHENTI I, MANDARIM-DE-LACERDA CA and AGUILA MB: Vitamin D Deficiency Increases Lipogenesis and Reduces Beta-Oxidation in the Liver of Diet-Induced Obese Mice .................................................. 106–115

KODA T, SHIRATO K, TAKANARI J and IMAI H: Enzyme-Treated Asparagus Extract (ETAS) Facilitates the Turnover of UV-B-Irradiated Keratinocytes .......... 138–142

YAMASHITA Y, MITANI T, WANG L and ASHIDA H: Methylxanthine Derivatives-Rich Cacao Extract Suppresses Differentiation of Adipocytes through Downregulation of PPARγ and C/EBPs ........................................ 151–160

Note

Letter to the Editor

Regular Paper

WANG W, YE S, QIAN L and XING X: Sex-Specific Association of Serum 25-Hydroxyvitamin D3 with Insulin Resistance in Chinese Han Patients with Newly Diagnosed Type 2 Diabetes Mellitus ................................................................. 173–178

OLIART ROS RM, RODRIGUEZ IS, OTERO MGS, GIL OML, ESCOBAR-SAGASTUME I and ALEXANDER-AGUILERA A: Comparative Effect between Sardine Oil and Fish Oil Rich in Omega-3 Fatty Acids on Hypertension and the Membrane Composition of Adipocytes in SHR Rats ............................................................................................................. 179–184

SATO T, MURAMATSU N, ITO Y, YAMAMOTO Y and NAGASAWA T: L-Lysine Attenuates Hepatic Steatosis in Senescence-Accelerated Mouse Prone 8 Mice .................................................. 192–199

AKASHI Y, SUZUKI H, KANEMOTO K, HIROSE Y, YAMASHITA K, YAMAMOTO T, MIYAZAWA T, HIROSE K, ISHIKAWA H and MAENO T: Thiamine Concentrations in Newly Hospitalized Elderly Patients with Infectious Diseases at a Community Hospital in Japan .................................................................................................................. 209–214

KAMO S, TAKADA Y, YAMASHITA T, SATO T, YANO E, ZAIMA N and MORIYAMA T: Group B Soyasaponin Aglycone Suppresses Body Weight Gain and Fat Levels in High Fat-Fed Mice ........................................................................................................... 222–228

Note

HIROSE Y, ONISHI T, MIURA S, HATAZAWA Y and KAMEI Y: Vitamin D Attenuates FOXO1-Target Atrophy Gene Expression in C2C12 Muscle Cells ................................................................. 229–232

LI X, HIGASHIDA K, KAWAMURA T and HIGUCHI M: Time Course of Decrease in Skeletal Muscle Mitochondrial Biogenesis after Discontinuation of High-Fat Diet ........................................... 233–238

Regular Paper

IKEDA S, NOMURA S, HANZAWA F, TAKAHASHI S, ODA H, FUJIWARA Y and UCHIDA T: α-Tocopherol Intake Decreases Phylloquinone Concentration in Bone but Does Not Affect Bone Metabolism in Rats ...................................................... 243–250

IZUKA Y, OZEKI A, TANI T and TSUDA T: Blackcurrant Extract Ameliorates Hyperglycemia in Type 2 Diabetic Mice in Association with Increased Basal Secretion of Glucagon-Like Peptide-1 and Activation of AMP-Activated Protein Kinase .............................................................................................................................. 258–264

FUKUNAGA S, WADA S, SATO T, HAMAGUCHI M, AOI W and HIGASHI A: Effect of Torula Yeast (Candida utilis)-Derived Glucosylceramide on Skin Dryness and Other Skin Conditions in Winter .................................................................................................................. 265–270

NISHIJIMA C, SATO Y, CHIBA T and UMEGAKI K: Nationwide Online Survey to Complement the Current Voluntary Reporting System for Adverse Events Associated with Dietary Supplements: Application to the Case of Skin Manifestations ...... 277–283

Note

TSUCHIYA Y and KAWAMATA K: [6]-Gingerol Induces Amiloride-Sensitive Sodium Absorption in the Rat Colon via the Capsaicin Receptor TRPV1 in Colonic Mucosa .................................................................................................................. 287–291

SHIBATA K: Urinary Excretion of 2-Oxo Acids Is Greater in Rats with Streptozotocin-Induced Diabetes .................................................................................................................. 292–295

SANEYASU T, SHINDO H, HONDA K and KAMISOHAMA H: The Extract of Soybean Protein Increases Slow-Myosin Heavy Chain Expression in C2C12 Myotubes ........ 296–300

Withdrawal .................................................................................................................. 305
Regular Paper

Nishino K, Sakurai M, Takeshita Y and Takamura T: Consuming Carbohydrates after Meat or Vegetables Lowers Postprandial Excursions of Glucose and Insulin in Nondiabetic Subjects .................................................................................. 316–320

Hino Y, Koyanagi A, Maebuchi M, Ichinoe T and Furuya S: Comparison of the Effect of Soy and Casein-Derived Peptide Administration on Tyrosine and Catecholamine Metabolism in the Mouse Brain ................................................................. 329–334

Genda T, Kondo T, Hino S, Sugura S, Nishimura N and Morita T: The Impact of Fructo-Oligosaccharides on Gut Permeability and Inflammatory Responses in the Cecal Mucosa Quite Differs between Rats Fed Semi-Purified and Non-Purified Diets .......................................................................................................... 357–366

Note

Hemila H: Effect of β-Carotene Supplementation on the Risk of Pneumonia Is Heterogeneous in Males: Effect Modification by Cigarette Smoking .............................................. 374–378

Regular Paper

IKEDA S, HANZAWA F, TAKAHASHI S, SUZUKI N, SANO K, ODA H and UCHIDA T: Tissue Distribution of Menaquinone-7 and the Effect of α-Tocopherol Intake on Menaquinone-7 Concentration in Rats .......................................................... 391–398

UCHIDA T, NOMURA S, ODA H and IKEDA S: γ-Tocopherol Is Metabolized Faster than α-Tocopherol in Young Japanese Women .......................................................... 399–403

KAWADE N, TOKUDA Y, TSUJINO S, AOYAMA H, KOBA YASHI M, MURAI A and HORIZO F: Dietary Intake of Ascorbic Acid Attenuates Lipopolysaccharide-Induced Sepsis and Septic Inflammation in ODS Rats .......................................................... 404–411

MORIYA A, FUKUWATARI T and SHIBATA K: A Suitable Diet for Recovery from Starvation Is a High-Fat Diet, but Not a High-Protein Diet, in Rats .......................................................... 412–424

FUKUDA Y, YAMAMOTO S, TANIGUCHI Y, MARUKAWA S, KURIHARA H, NAKAJIMA H and YAMASAKI T: Relationship between Food-Intake Trends and Estimated Glomerular Filtration Rate in Elderly Patients with Type 2 Diabetes Mellitus .......................................................... 425–431

ONISHI S, SHIRAKI M, NISHIMURA K, HANAI T, MORIWA Y and SHIMIZU M: Prevalence of Sarcopenia and Its Relationship with Nutritional State and Quality of Life in Patients with Digestive Diseases .......................................................... 445–453

Note

MURAKAMI H, OGAWA T, TAKAFUTA A, YANO E, ZAIMA N and MORIYAMA T: Percutaneous Sensitization to Soybean Proteins Is Attenuated by Oral Tolerance .......................................................... 483–486

Contents of Volume 64 ........................................................................................................ 487–492

Index to the Authors of Volume 64 ........................................................................... 493–498

Index to the Key Words of Volume 64 ........................................................................ 499–501
