Sakai, S. and Yogoshi, S., should resign their post as of December 1, 1999.
Designating Mr. Akiyoshi, Y. of Miyazaki University to an executive as of December 1, 1999 was approved.
The executive Mr. Nishiyama, S. of Yamaguchi University was appointed to enhance publicity work.

2/ Membership Drive
Secretary General reported that on the list as of November 12, 1999 the numbers of the individual and supporting
members were 105 and 2, respectively. It passed that the Association should much more intensively pursue membership drive
following the leadership of the executive Mr. Nishiyama, S.

It was proposed and unanimously approved that from the fiscal year 2000 the individual member should be subdivided into two categories; regular member and student member with the annual dues of 5,000 yen and
3,000 yen, respectively, and that the 1999's issues of the Journal should be delivered free of charge to the ones
making membership application within the fiscal year 1999.

3/ Revision of the Constitution
Secretary General reported that proposed changes in the JRCSA Constitution were still under discussion, and
would therefore be shown at the meeting of the execu-
tives and councilors at the earliest opportunity.

4/ Financial Report
Secretary General reported the final accounts for the fiscal year 1998 with distribution of relevant documents.
All present accepted this unanimously.

Utsui Dam Reservoir was conducted with 20 participants.

Contribution Guideline & Instructions to Authors

The Journal of Rainwater Catchment Systems aims at providing researchers and engineers engaged in development
and/or utilization of water resources with timely and accessible
information on rainwater catchment systems, and offers publication outlet for original papers which contribute to this aim.

At least one member of JRCSA should be included among the authors of a paper except which is invited by JRCSA.
Manuscripts should be typed, following the Instructions to Authors.

Three copies of the manuscripts submitted for publication should be sent to the Secretariat:
Tsugio Ezaki, Prof.
Secretary General
Japan Rainwater Catchment Systems Association/JRCSA/
c/o College of Agriculture, Ehime University
3-5-7 Tarumi, Ehime, 790-8566 Japan

The Editorial Board decides whether every particular manuscript should be accepted as it is, revised, or rejected.

Manuscripts are considered according to the instructions as detailed in the Guidelines.
