Contents
A mysticete fossil from the middle Pleistocene Ichijiku Formation, Chiba Prefecture, Japan  
Toshiyuki Kimura, Shinji Isaji, and Hiroko Okazaki  
Chordates or animals with notochord? An approach from palaeontology and molecular biology  
Kinya Yasui and Degan Shu  
Analysis of crystallographic directions of calcareous microfossils produced by the past tiny phytoplankton - crystalline nature of some calcareous nanofossil species, Florisphaera profunda and discocysters, and its meanings  
Koji Kameo and Noboru Furukawa  
Taphonomy of large-scale oyster shell beds: examples from the Pleistocene Shimosa Group around the Lake-Kasumigaoka area, Ibaraki Prefecture, Japan  
Yoshikazu Tokoyama, Hisao Ando, and Satoko Hashimoto  
Nature of tidal flats, its past and present  
Shin’ichi Sato, Toshifumi Komatsu, and Koji Hirose  
Sedimentological review of tidal environment: toward comprehension of tidal-flat environment in Japan  
Norihiko Sakakura  
Depositional environments and bivalve assemblages of the Upper Cretaceous Himenoura Group, Oshima, Amakusa Islands, Kyushu, Japan  
Taro Kamagae and Toshifumi Komatsu  
Present states of research in the Mesozoic brackish-water bivalve assemblages in Japan: habitats of the Cretaceous bivalves in the Amakusa area, and paleoecology of the Jurassic to Cretaceous true oyster  
Toshifumi Komatsu  
Faunal change of bivalves in Ariake Sea after the construction of the dike for reclamation in Isahaya Bay, Western Kyushu, Japan  
Shin’ichi Sato and Taku Kanazawa  
Fragment, travelling and confusion of the Recent malacofoana: the Ariake Inland Sea as the representative of a miserable state of the Japanese inner bay malacofoana  
Hiroshi Fukuda  
Malacofoana and biogeographic character of the Shiranui Sea  
Hiroyoshi Yamashita  
Diversity of polychaetes and environments in tidal flats: A study on the Hediste species group (Nereididae)  
Masanori Sato  
Notes on University Museums in Japan  
Kiyotaka Chinzai  
Biology of plankton foraminifera  
Makoto Yamasaki  
Diatom, its life and death  
Chieko Shimada and Yoshihiro Tanimura  
Shiga Fossil Footprint Research Group  
Yoshiaki Okamura  
Proceedings
