Number 81 March, 2007

Contents

Carcharodon megalodon tooth set collected from calcareous concretions in the Miocene Kokozura Formation, Takaku Group, Kitaibaraki City, Ibaraki Prefecture, Japan
Yoshiki Koda, Wataru Koike, Hisao Ando, Teruya Uyeno and Kazuyuki Usui...1

Review of paleoceanographic transition during the Oligocene in the eastern equatorial Pacific Ocean
Hiroyuki Takata, Ritsuo Nomura and Koji Seto...5

Eastern Mediterranean Paleooceanography during deposition of sapropels over the last 200,000 years based on foraminiferal analyses
Kazuko Usami, Shiro Hasegawa, Tatsuhiko Sakamoto, Koichi Iijima and Tadamichi ObA...15

A deep-sea shark assemblage from the Miocene in southwest of Gunma Prefecture, central Japan and the biogeographical significance
Yuji Takakura...24

Paleontology of Brachiopods
Yasufumi Iryu and Hiroshi Nishi...45

Study of the Japanese Palaeozoic brachiopods:
A historical review
Jun-ichi Tatawa...46

The origin and body plan evolution of brachiopods
Kazuyoshi Endo...57

Paleoenvironmental analyses based on carbon and oxygen isotopic compositions of brachiopod shells: a review
Kazuyuki Yamamoto, Yasufumi Iryu and Tsutomu Yamada...67

A new moulding technique for fenestrated parts of fossils
-A case of herbivorous dinosaur Protoceratops skull-
Matsumoto Yukihide and Hashimoto Ryo...79

Searching the classical papers
Tadashi Sato...86

What kind of creature is a Fortipecten takahashii?
Rei Nakashima...90

Michinoku Amateur Paleontologists’ Club
Yasuhiro Hikichi, Yukihiro Takaizumi and Yutaro Suzuki...99

Friends of Fossils.........................104

Proceedings................................105
