CONTENTS

Original Articles

Quantitative Analysis of the Deltoid Tendon Reflex with Evoked T-waves
Applied to Diagnosis of the Level of Injury in Cervical Myelopathy "Takuya Shiba"(125)

Helicobacter pylori and Acetylsalicylic Acid Synergistically Accelerate
Apoptosis in Rabbit Gastric Mucosal Cells in vitro"Kazuhiro Watanabe"(135)

Prognostic Correlates of QT Dispersion in Exercise Stress Tests
of Patients with Myocardial Infarction ..................Takako Yamaguchi,
Yasushi Kōide, Masayuki Yotsukura, Hideaki Yoshino and Kyoto Ishikawa"(145)

Clinical Significance of ST-T Changes During the Recovery Phase
of Treadmill Exercise Electrocardiograms ..................Atsuo Katayama,
Yasushi Kōide, Masayuki Yotsukura, Hideaki Yoshino and Kyoto Ishikawa"(159)

Remote Ischemia in the Setting of Acute Myocardial Infarction:
Echocardiographic Assessment of Left Ventricular Wall Thickening
Using the Modified Centerline Method ......................Hidehiko Houshaku,
Konomi Sakata, Hiroaki Kurihara, Kiyotake Iwamori,
Hideaki Yoshino and Kyoto Ishikawa"(171)

Long-term Follow-up of Premenopausal Women with Uterine
Leiomyomomas Treated with Administration of Gonadotropin-
releasing Hormone Agonist .........................Ken-ichi Noguchi"(183)

Do Behavioral Stimulant Effects of Caffeine on CNS Mediate
Adenosine A1 receptor? ........................................Junichi Satoh,
Ryuji Kato, Chika Murakami, Masae Inoue,
Kunie Kamata and Mikio Nakamura"(199)

Deviations of the Expression Level in Genes Related to the Cell
Cycle Regulation System in Liver of the Tumor-bearing Mice .......Emi Yoshinaga"(211)

Significance of ST Segment Re-elevation Early after Acute
Myocardial Infarction Using Automatic Intermittent
Recording 12-lead Electrocardiography ......................Akira Yamamoto,
Takako Yamaguchi, Masayuki Yotsukura and Kyoto Ishikawa"(227)

The Morphological Determination for Gene Expression Level
of K-ras and p53 Genes in Mouse Retina Using in situ
RT-PCR Technique ..................................Ruriko Hayakawa"(241)

Mechanism of Accumulation and Elimination of Organic Solvent-soluble
Fluorescence Substance (Lipofuscin Like Substance) in
Rat Myocardium Induced by a Fish Oil Supplement Diet ..................Koji Kajima,
Atsuo Yanagisawa and Kyoto Ishikawa"(257)

Prediction of Prognosis of Acute Inferior Wall Myocardial
Infarction by Admission Electrocardiograms .............Tatsuto Kajiwara,
Hideaki Yoshino, Masayuki Yotsukura and Kyoto Ishikawa"(271)
