Proceedings of the 56th Annual Meeting of Western Region

Gifu, October 26–27, 2001

Contributed Papers
1. Comparative studies on the population dynamics of *Latrodectus hasseltii* and other Arthropods
   Yoshida, H., Iwagami, Y., Uchino, K., Tanaka, T. (Sakai City Institute of Public Health),
   Yoshida, M. (Osaka Prefectural Institute of Public Health),
   Kougata, S. (Home Service K. K.) ..........................121

2. Flight distribution of *Halyomorpha halys* in limited areas
   Watanabe, M. (Toyama Institute of Health) ...............121

3. Studies on human tick-bites and the possibility of the pathogen of tick borne disease intermediation
   Oikawa, Y. (Kanazawa Medical University) ..............121

4. New findings in survey of Lyme *Borrelia*
   Takada, N. (Fukui Medical University) ....................121

5. Ultrastructure of emerging disease pathogens transmitted by ticks
   Yano, Y. (Fukui Medical University) ......................122

6. A comparison of virus multiplication in the midgut and salivary gland
   Yamanishi, H. (Kobe Gakuen Women's College) ........122

7. Prevalence of Karp strain-like *Orientia tsutsugamushi* in Aichi Prefecture
   Yamashita, T., Morishita, T., Saka, K. (Aichi Prefectural Institute of Public Health),
   Kadosaka, T. (Aichi Medical University), Kasuya, S. (Gifu University) ...........122

8. Electron microscopic observations of *Orientia tsutsugamushi* in the salivary gland cells of naturally infected larvae
   Kadosaka, T. (Aichi Medical University) ..................122

   Matsuse, I. T., Nakamura, N., Hattori, M., Kamimura, K., Funada, H. (Toyama Medical and Pharmaceutical University) ........123

10. The study on the novel anticoagulant identified from the salivary gland of hard tick, *Haemaphysalis longicornis*
    Iwanaga, S. (Kobe University),
    Izawa, H., Yuda, M., Chinzei, Y. (Mie University) ..........123

    Izawa, H., Yuda, M., Orito, Y., Miura, K., Ando, K., Chinzei, Y. (Mie University) ...........123

12. Methods for mosquito colonization
    Kamimura, K., Matsuse, I. T., Shirai, Y. (Toyama Medical and Pharmaceutical University) ........123

13. Nucleotide sequence variations in the cytochrome C oxidase subunit 1 gene within *Lutzomia* and *Glossina* species
    Suguri, S., Harada, M. (Kagawa Medical University),
    Okamoto, M. (Tottori University),
Hashiguchi, Y. (Kouchi Medical University) .....124

14. Cercariae and their host snails inhabiting tidelands of estuaries
—Candidates for the indicator species of the environments—
........................................Harada, M., Suguri, S. (Kagawa Medical University) .....124

15. The Chironomidae as the indicator for classification of water-bodies and pollution
..................................................................................Kondo, S. (Aichi Medical University) .....124
