Welcome to the Special Section on OLED Displays and Related Technologies

Editor-in-Chief Chihaya Adachi

The ITE (Institute of Image Information and Television Engineers) Transactions on Media Technology and Applications announces a forthcoming Special Section on "OLED Displays and Related Technologies" to be published in April 2015 (Vol. 3, No.2). The objective of the special section is focused on the technologies of OLED ranging from materials research and basic device physics to display including backplane technologies, and other applications.

- Materials for organic devices (OLED)
- Fundamental mechanisms
- Flexible organic devices

With the great effort made by the associate editors in the guest editorial committee and anonymous reviewers, we have selected six high quality papers.

We are very grateful to all the authors who have submitted their excellent works to this issue and all the guest editors and reviewers. We hope this special section will promote research in each field.
