Welcome to the Special Section on IDW '19

Editor-in-Chief **Munehiro Kimura**

It is a great pleasure to introduce the special section "IDW '19" in the Transactions on Media Technology and Applications (MTA). The objective of the special section is focus on the advances in display materials, devices, and systems. Initially, we called for papers in the following areas:

- Based on the presentation in IDW '19
- Based on the display materials, devices, and systems in the fields covered by IDW '19

We have selected ten high quality papers (We published seven English papers in MTA and published three papers of Japanese in ITEJ). We are very grateful to all the authors who have submitted their excellent works to this issue and all the guest editors and reviewers. We hope that this special section will promote research in boundary fields.
