117. *On the Different Types of Basins*

By KOJI HIDAKA, M. J. A.

(Communicated Oct. 13, 1980)

The three elliptic basins shown in the diagram may have a centre at E. The three ellipses A, B, and C shown in the diagram representing three different basins. By this method these figure may be applied to derive the manners of oscillations of the waters in the basins.
