THE JAPANESE JOURNAL OF PSYCHONOMIC SCIENCE

Edited and published by

THE JAPANESE PSYCHONOMIC SOCIETY

President: Keiichiro Tsuji (Chukyo University)
Chief Editor: Yoshito Fukada (Teikyo University)

Associate Editors
Shigeru Ichihara (Tokyo Metropolitan University)
Masako Jitsumori (Chiba University)
Tadashi Kiruchi (University of Tsukuba)
Shoichi Shinohara (Teikyo University)
Seiji Yamagami (Senshu University)

Editorial Board
J. Abe
M. Jitsumori
T. Toshima
Y. Fukada
T. Kiruchi
S. Yamagami
J. Gyoja
Y. Nakajima
S. Ichihara
Y. Hakoda
N. Osaka
S. Shinohara
H. Yoshimura

CONTENTS

Original Articles
Masako Yamashita: The influence of precedence and clearness on recognition judgment ................................ 87
Takeo Kondou and Tamotsu Toshima: Effect of task-demand on sensitivity to spatial frequencies and performances in three-dimensional object recognition ............................................. 97
Yuji Hoshino: False recall created by learning related words: A comparison between blocked presentation and random presentation of related words ....................................................... 105

Theoretical Articles
Hirokazu Yoshimura and Hirofumi Shimizu: Irvin Rock on motion perception: Based on the observation of computer-developed motion stimuli .................................................................................. 115
Yoshiaki Nakajima: Can the analysis of attentional blink phenomenon effectively bridge memory theory and resource theory? ........................................................................................................ 130
Tadasu Oyama: Quantitative measurement of Gestalt factors and perceptual information-processing ................. 147

Forum
Theme: Current directions in memory research
Masanobu Takahashi: Recent trends on false memory research using DRM paradigm
Masako Jitsumori: On the issues of memory processing for concept formation in animals
Takashi Tsuzuki: Connectionist modeling of human memory processes

Annual Meeting
Joint Symposium "What can be found through comparison: A method for the advancement of basic researches in psychology"
Keiichiro Tsuji and Junshiro Makino: Orientation of problem: Aim of the symposium
Junshiro Makino: The comparison of inbred strains as an approach for the studies of structure of individual differences as intra-species variation
Shigeru Watanabe: Comparison for what?
Keiichiro Tsuji: Findings obtained by situational comparison: A supplementary remark

Panel Talk
Masaki Tomonaga, Takatsune Kumada and Sakiko Yoshikawa: Visual cognition from the standpoint of comparative cognitive science

Brief Talk
Yuji Takeda: How is the serial deployment of attention controlled?

Oral and Poster Presentations

Book Reviews
Tadasu Oyama: Y. Nakajima (Ed.) Encyclopedia of Contemporary-Psychological "Theories" ................................ 237

Announcements ............................................................................................................................................... 239
